Teaching and assessment

How you'll learn

Modules are delivered by a mixture of lectures and seminars in Year One, in Year Two the lecture element within modules is complemented by student led seminars. Finally, in Year Three, most modules are delivered by a short series of lectures with a focus on student-led seminars thereafter. Self-directed study is also expected through the course reading list and conducting research for your essays and projects. Academic staff are regularly available via their office hours for one-to-one feedback and support. Course material is available 24-hours a day on Canvas, our online learning platform, and study support is available from our dedicated student services team.

How you're assessed

Typical forms of assessment include:

- Exams – an examination may cover essay-based work or language work
- Essays or projects
- Portfolio submission – such as a critical reflection of seminars
- Presentations
- Practical and laboratory sessions, primarily used for teaching techniques and knowledge for the analysis of specific classes of archaeological material. Some modules taught by practical session are examined by continuously assessed coursework alone, often comprising short practical examinations and longer reports on an assemblage of artefacts or remains.
