About this course

This MSc programme concentrates on science-based archaeology and is ideal for you if you want to become post-excavation or artefact specialists in the museum or commercial sectors.

Introduction

There are two pathways to choose from: **Artefact**, and **Landscape and Environment**. Both pathways are suitable if you are a graduate in archaeology or a science subject and want to start or further your career in these exciting fields.

The programme is also useful preparation for further academic research and the skills you'll gain, such as problem-solving and team work, will be attractive to any employer.

Fieldwork is an important part of research in archaeology and we have projects based internationally, in Egypt, Greece, Bulgaria, Jordan, Turkey, Italy, Zambia, Kenya, Ethiopia and South Africa, as well as in the British Isles.

Who is this course for?

This MSc is perfect for graduates in Archaeology or related disciplines who want to become post-excavation or artefact specialists, or go onto further academic research in Archaeology.

What you'll learn

- Knowledge and critical understanding of the development of past and contemporary cultures through the application of scientific techniques
- High level skills of archaeological science through applied analysis and interpretation, from methodological aspects of instrumental analysis to the analysis of specific sites or artefacts
- Broad comparative knowledge of the archaeology of selected geographical regions and chronological periods
- To demonstrate an in-depth understanding of the principles and methods by which archaeological data are acquired and analysed
- To evaluate the variety of approaches to the understanding, constructing and interpreting the past
- To design, research and present a sustained piece of archaeological writing.

Teaching and assessment

How you'll learn

Most modules are delivered on campus in small group seminars and occasionally via lectures. Certain modules include practical work. Independent study is fostered by essay-work and set preparation for seminars that grows progressively demanding as your knowledge increases over the course. A range of bibliography is set to assist with independent study also. Feedback is given on all submitted work to help your reflective engagement and progress in future exercises and assessment activities.

The compulsory research skills module, ALGY 601 is delivered via a number of teaching sessions on subjects such as library and scholarly research and careers talks by members of Archaeology, Classics and Egyptology.

Preparation for the MSc dissertation is undertaken over the length of the programme and completed in the summer period. You will receive one-to-one supervision sessions with a research-active member of staff who will oversee your research on your approved dissertation topic. As part of your dissertation work you may choose to: design experiments, carry out analyses of a body of data or perform GIS studies.

How you're assessed

Assessment is normally by essay and a portfolio of practical work but examinations are included in some modules.

Within the research skills module, ALGY 601, you will develop research skills through the production of work that is assessed and which includes a presentation of your dissertation research topic to a staff and student audience.

You will prepare for the MSc dissertation over the length of the programme, however delivery and completion will be in the final four months of the course. The dissertation counts for 60 credits (one third) of your masters. Your finished dissertation is assessed on the quality of your research, your handling of the scholarship, engagement with an issue, organisation and effective presentation.

Entry requirements

The qualifications and exam results you'll need to apply for this course.

Postgraduate entry requirements

We accept a 2:2 honours degree from a UK university, or an equivalent academic qualification from a similar non-UK institution. This degree should be in Archaeology (or a closely related subject e.g. Anthropology, some science subjects (Biological, Physics, Geology, Geophysical), History and Geography).

International qualifications

[Select your country or region to view specific entry requirements.](#)

Many countries have a different education system to that of the UK, meaning your qualifications may not meet our entry requirements. Completing your Foundation Certificate, such as that offered by the [University of Liverpool International College](#), means you're guaranteed a place on your chosen course.

English language requirements

You'll need to demonstrate competence in the use of English language, unless you're from a [majority English speaking country](#).

We accept a variety of [international language tests](#) and [country-specific qualifications](#).

International applicants who do not meet the minimum required standard of English language can complete one of our [Pre-Sessional English courses](#) to achieve the required level.

IELTS

6.5 overall, with no component below 6.0

TOEFL iBT

If you took a TOEFL test on or before 20 January 2026, you'll need 88 overall, with minimum scores of listening 19, writing 19, reading 19 and speaking 20. If you took a TOEFL test from 21 January 2026 onwards, when a new scoring system was introduced, you'll need 4.5 overall, with 4 or above in all components. TOEFL Home Edition not accepted.

Duolingo English Test

125 overall, with writing not less than 125, speaking and reading not less than 115, and listening not below 110. For academic year 2025/26 only, we will also accept the production, literacy, comprehension and conversation score set: 120 overall, with no component below 105.

Pearson PTE Academic

WAEC

C6 or above

Pre-sessional English

Do you need to complete a Pre-sessional English course to meet the English language requirements for this course?

The length of Pre-sessional English course you'll need to take depends on your current level of English language ability.

Pre-sessional English in detail

If you don't meet our English language requirements, we can use your most recent IELTS score, or [the equivalent score in selected other English language tests](#), to determine the length of Pre-sessional English course you require.

Use the table below to check the course length you're likely to require for your current English language ability and see whether the course is available on campus or online.

Your most recent IELTS score	Pre-sessional English course length	On campus or online
6.0 overall, with writing at 6.0 and no component below 5.5	6 weeks	On campus or online
5.5 overall, with writing at 5.5 and no component below 5.0	10 weeks	On campus or online
5.5 overall, with no more than one component at 5.0	12 weeks	Online
5.5 overall, with no component below 5.0	20 weeks	On campus
5.0 overall, with no more than one component at 4.5	30 weeks	On campus
4.5 overall, with no more than one component at 4.0	40 weeks	On campus

If you've completed an alternative English language test to IELTS, we may be able to use this to assess your English language ability and determine the Pre-sessional English course

length you require.

Please see our guide to [Pre-sessional English entry requirements](#) for IELTS 6.5 overall, with no component below 6.0, for further details.
