### About this course

This programme enables you to combine our popular BA Communication and Media with a Minor pathway in Game Design Studies – a new and distinctive provision in the study of interactive audiovisual media.

---

### Introduction

**Study in a department currently ranked within the world top 75 and 5<sup>th</sup> in the UK for Communication (Shanghai Global Rankings of Academic Subjects 2025).**

The world we live in is dominated by media in many forms: from entertainment and culture through news and social media to politics and promotion, the media shapes our understanding of what we know and what we consume. Whether you want to work in one of these areas, to research their impact or simply to understand more about our relationship with media, this programme provides a thorough introduction with plenty of opportunities to develop specialist skills.

A wide range of optional modules allow students to pursue their own interests and focus on particular media and communication forms, analysing how they are organised as text, how they represent the world to us and ourselves to the world (from global power politics to constructions of individual identity), and how the media industries are organised to produce and profit from them. But we teach all of our students to acquire strong research skills and they are given the opportunity to practice them through independent or collaborative research.

As a Games Design Studies student, you will develop skills in coding and programming, games scholarship, and creative design through a combination of modules from across the School of the Arts, as well as a suite of bespoke interdisciplinary modules concerning the design and interpretation of games. Topics include the history and development of gaming cultures, the complex nature of interactive media, and the critical issues that accompany engagement with virtual worlds.

Digital games represent one of the fastest growing forms of entertainment media: consequently, there is a growing need for many jobs that are not only in the games industry, but in surrounding industries as well. This programme develops a wide range of skills that prepare students for employment at various entry points in the job market, including content creation, publishing, journalism, and marketing.

## **Year in Industry**

This programme is available with a Year in Industry. Year Three is spent on a paid placement within an organisation in industry, broadly defined. You will be supported by the School of the Arts and the Department throughout, and your reflexive written account of the experience will contribute towards your final degree result. If you wish to study this programme with a Year in Industry, please put the option code 'YI' in the 'Further Choices' section of your UCAS application form.

# Course content

Discover what you'll learn, what you'll study, and how you'll be taught and assessed.

## Year one

Your first year will consist entirely of compulsory studies. Besides introducing you to Communication & Media and Game Design Studies as subjects, the first year is designed to support you as you acquire and practice the academic and analytical skills you will need to succeed as a student and in your chosen career.

## Modules

Compulsory modules	Credits
<u>INTRODUCTION TO COMMUNICATION AND MEDIA STUDIES B (COMM102)</u>	15
<u>MEDIA INDUSTRIES AND INSTITUTIONS B (COMM110)</u>	15
<u>COMMUNICATION, CULTURE, AND MEDIA ANALYSIS B (COMM112)</u>	15

Programme details and modules listed are illustrative only and subject to change.

## Year two

In year two the optional modules offer plenty of choice, so you can begin to specialise in the areas which interest you most or which might prove valuable for your chosen career. For example, you can delve more deeply into film and the entertainment industry, the representation of self and society, or the interplay between global media and war, as well as developing your understanding of programming, artificial intelligence and some of the more artistic aspects of game design.

- All students take two compulsory modules – **COMM207** and **COMM208** – which will introduce you to academic research and support you to practice and develop your research skills.
- **SOTA260** is compulsory for students taking the Year in Industry pathway.

## Modules

Compulsory modules	Credits

## Teaching and assessment

### How you'll learn

Weekly lectures and seminar discussions may be supplemented by screening sessions, presentations and opportunities for group work where appropriate. We regularly invite expert speakers and practitioners to speak to our students about their work. Some modules also make use of our specialist equipment or software.

Dissertation and work placement modules involve more independent study, but always under the careful individual supervision of a member of academic staff.

### How you're assessed

We are committed to using a range of different forms of assessment, so types of assessment vary widely from module to module. Depending on your choice of modules, these may include coursework projects, essays, blogs, reports, literature reviews, writing exercises, presentations, online tests and unseen examinations.

## Liverpool Hallmarks

We have a distinctive approach to education, the Liverpool Curriculum Framework, which focuses on research-connected teaching, active learning, and authentic assessment to ensure our students graduate as digitally fluent and confident global citizens.

The Liverpool Curriculum framework sets out our distinctive approach to education. Our teaching staff support our students to develop academic knowledge, skills, and understanding alongside our **graduate attributes**:

- Digital fluency
- Confidence
- Global citizenship

Our curriculum is characterised by the three **Liverpool Hallmarks**:

- Research-connected teaching
- Active learning
- Authentic assessment

All this is underpinned by our core value of **inclusivity** and commitment to providing a curriculum that is accessible to all students.

## **Pre-sessional English**

Do you need to complete a Pre-sessional English course to meet the English language requirements for this course?

The length of Pre-sessional English course you'll need to take depends on your current level of English language ability.

---

## **Pre-sessional English in detail**

If you don't meet our English language requirements, we can use your most recent IELTS score, or the equivalent score in selected other English language tests, to determine the length of Pre-sessional English course you require.

Use the table below to check the course length you're likely to require for your current English language ability and see whether the course is available on campus or online.

Your most recent IELTS score	Pre-sessional English course length	On campus or online
6.0 overall, with no component below 5.5	6 weeks	On campus or online
5.5 overall, with no more than one component at 5.0	10 weeks	On campus or online
5.5 overall, with no component below 5.0	12 weeks	Online
5.0 overall, with no component below 5.0	20 weeks	On campus
5.0 overall, with no component below 4.5	30 weeks	On campus
4.5 overall, with no more than one component at 4.0	40 weeks	On campus

If you've completed an alternative English language test to IELTS, we may be able to use this to assess your English language ability and determine the Pre-sessional English course length you require.

Please see our guide to [Pre-sessional English entry requirements](#) for IELTS 6.5 overall, with no component below 5.5, for further details.
