

MSc

# Environmental Assessment and Management

## Study mode

Full-time

Part-time

## Duration

12 months

24 months

Apply by: **11 September 2026**

Starts on: **28 September 2026**

## About this course

On this taught programme, you'll gain an understanding of the environmental implications of development action and of the wider social, political and economic issues surrounding decisions about the environment.

## Introduction

Across a series of compulsory and optional modules, you'll develop advanced environmental planning and management skills – along with the relationships and inherent challenges to overcome to plan for a healthy society.

You will learn to fully understand and practice various tools and techniques associated with environmental assessment and management, including data collection, infrastructure planning, and environmental management systems, with a view to providing you with opportunities of working within the field, as well as research, critical analysis and independent thinking.

You'll get to hear from active practitioners through client-led modules featuring guest lecturers and you will develop real-world skills that you will use throughout your career.

---

## Who is this course for?

This MSc is suitable for students from a wide range of disciplinary backgrounds i.e. your first degree can be from social, technical or natural sciences and in a subject not related to environmental sciences. This programme offers you the opportunity to seek career options in environmental assessment and management.

We also welcome non-traditional qualifications and relevant work experience which are considered on their individual merits.

---

## What you'll learn

- How to evaluate challenges facing modern society in terms of the need to plan for a healthy environment and to manage it accordingly
  - How to evaluate the interrelationships between economic and social development and impacts on the environment at a variety of scales, and how to produce effective and implementable solutions to policy and planning dilemmas
  - A range of analytical skills and techniques designed to develop appropriate and implementable solutions to a range of complex environment related problems
  - Knowledge, skills and understanding to the achievement of environmentally friendly and feasible solutions to real-life problems
  - Assess the need to adopt strong professional values and ethics, recognising the diversity of interests in public and private decision making
  - Take part in exploring ideas, perspectives and debates in environmental assessment and management.
- 

## Accreditation

This course is accredited by the [Institute of Environmental Management and Assessment \(IEMA\)](#).

IEMA is the professional body for everyone working in environment and sustainability. This course entitles students to free student membership for the duration of the course and on successful completion you qualify for GradIEMA.

Graduate membership is a launchpad for future leaders within environment and sustainability and offers a range of benefits to support you throughout your career. You can then “Fast track” to Practitioner Membership (PIEMA) following successful completion of the work-based assessment of competence.

# Course content

Discover what you'll learn, what you'll study, and how you'll be taught and assessed.

## Semester one

In your first semester, compulsory modules will introduce you to the theory and practice of environmental assessment, teach you about the health origins and importance of environmental protection policy, and help you develop a critical understanding of the growing importance of environmental and sustainable development thinking in decision-making processes.

You'll work independently and in groups, attend interactive lectures, deliver presentations and take part in guest lectures from people currently working in the field.

Optional modules will offer you the chance to develop your education into areas which interest you the most, including the theory and practice of marine planning, the impact of people on the environment, or the issues facing society regarding access to basic needs such as housing, employment or transport.

Please see below for semester one modules. Click on the next tab for semester two modules.

In addition to compulsory modules, you must also choose one optional module in each semester.

## Modules

Compulsory modules	Credits
POLITICS OF THE ENVIRONMENT (ENVS525)	15
ENVIRONMENTAL ASSESSMENT OF POLICIES, PLANS, PROGRAMMES AND PROJECTS (ENVS529)	15
HUMAN HEALTH IN IMPACT ASSESSMENT (ENVS611)	15

Optional modules	Credits
RESEARCH IN ANTHROPOCENE ENVIRONMENTS (ENVS485)	15
SPATIAL PLANNING CHALLENGES (ENVS411)	15

Programme details and modules listed are illustrative only and subject to change.

## Semester two

In your second semester, you'll further develop your environmental assessment skills with compulsory modules covering the historical and modern use of Green infrastructure planning, along with how businesses can influence the wider environmental agenda.

You'll also work on a group project where you'll apply your knowledge to create a tender document, which you will then present to a client and at a departmental conference.

Optional modules will help you develop your understanding of ecology and conservation, as well your independent thinking and critical insight skills.

In addition to compulsory modules, you must also choose one optional module in each semester.

## Modules

Compulsory modules	Credits
BUSINESS AND THE ENVIRONMENT (ENVS470)	15
ENVIRONMENTAL PLANNING AND MANAGEMENT PROJECT (ENVS560)	15
GREEN INFRASTRUCTURE PLANNING (ENVS545)	15

Optional modules	Credits
CONSERVATION MANAGEMENT (ENVS423)	15
MAKING PLANS (ENVS427)	15
MONITORING URBAN AIR POLLUTION (ENVS666)	15

Programme details and modules listed are illustrative only and subject to change.

## Final project

Starting with a workshop to develop your primary research skills, such as research design, literature searching, research methods and more, your final semester will be devoted to developing, researching and executing an independent piece of research on the topic relating to your speciality.

Initially, you will present your research outline to your supervisor, followed by a more detailed outline and, ultimately, a dissertation on your choice of research question. There will be plenty of chances to check in with an academic member of staff, either online or in-person, to discuss your research project over the course of the semester.

## Modules

Compulsory modules	Credits
DISSERTATION MCD/MA/MSC PLANNING (ENVS491)	60

Programme details and modules listed are illustrative only and subject to change.

## Teaching and assessment

## How you'll learn

To make sure you get a well-rounded education, we use a combination of different teaching styles, like lectures, seminars, tutorials, and practical sessions like group projects and field visits. All the course materials are waiting for you on the teaching homepage, so you can easily access what you need.

We want you to take an active role in your learning journey, so we encourage you to plan and organize your studies, whether that's on your own or with a group. Don't be shy about participating in class discussions, seminars, and library and IT studies. And make sure to get some real-world experience through practice contacts and site visits related to your coursework submissions.

## **How you're assessed**

We use a mix of assessment methods, like coursework like essays, reports, and seminar presentations, as well as exams.

These assessments give you a chance to dive deep into specific parts of the course and show off your writing skills for different audiences. You'll also have the chance to practice your speaking skills with seminar presentations and work as part of a team on group projects.

You'll get to demonstrate your knowledge, understanding, and critical thinking skills during exams and in a final research project in the summer.

## **Liverpool Learning Framework**

At Liverpool, we take a distinctive approach to education through the Liverpool Learning Framework. This means teaching that is engaging, inclusive and designed to help you succeed during your studies and beyond.

You'll develop specialist subject knowledge alongside the skills employers value most, including:

- Digital fluency
- Confidence
- Global citizenship

Our curriculum is characterised by the three Liverpool Hallmarks:

- Research-connected teaching - learning informed by the latest ideas and discoveries
- Active learning - taking part, applying knowledge and learning by doing
- Authentic assessment - assessments designed around real-world tasks and challenges

We also embed key priorities across our curriculum, including AI literacy, employability, and sustainability, helping you prepare for the future and make a positive impact in the world.

We're committed to creating a supportive and inclusive learning environment where every student can thrive.

# Fees and funding

Your tuition fees, funding your studies, and other costs to consider.

## Tuition fees

### UK fees (applies to Channel Islands, Isle of Man and Republic of Ireland)

Full-time place, per year – £14,000

Part-time place, per year – £7,000

### International fees

Full-time place, per year – £28,000

Part-time place, per year – £14,000

Tuition fees are for the academic year 2026/27.

Tuition fees cover the cost of your teaching and assessment, operating facilities such as libraries, IT equipment, and access to academic and personal support.

- You can pay your tuition fees in instalments.
- All or part of your tuition fees can be funded by external sponsorship.
- International applicants who accept an offer of a place will need to pay a tuition fee deposit.

If you're a UK national, or have settled status in the UK, you may be eligible to apply for a Postgraduate Loan worth up to £12,858 to help with course fees and living costs.

**[Learn more about paying for your studies.](#)**

## Additional costs

We understand that budgeting for your time at university is important, and we want to make sure you understand any course-related costs that are not covered by your tuition fee. This could include buying a laptop, books, or stationery.

Find out more about the [additional study costs](#) that may apply to this course.

---

# Entry requirements

The qualifications and exam results you'll need to apply for this course.

---

## Postgraduate entry requirements

We accept a 2:2 honours degree from a UK university, or an equivalent academic qualification from a similar non-UK institution. This degree can be in any subject discipline.

---

## International qualifications

Select your country or region to view specific entry requirements.

Many countries have a different education system to that of the UK, meaning your qualifications may not meet our entry requirements. Completing your Foundation Certificate, such as that offered by the [University of Liverpool International College](#), means you're guaranteed a place on your chosen course.

---

# English language requirements

You'll need to demonstrate competence in the use of English language, unless you're from a [majority English speaking country](#).

We accept a variety of [international language tests](#) and [country-specific qualifications](#).

International applicants who do not meet the minimum required standard of English language can complete one of our [Pre-Sessional English courses](#) to achieve the required level.

---

## IELTS

6.5 overall, with no component below 6.0

---

## TOEFL iBT

If you took a TOEFL test on or before 20 January 2026, you'll need 88 overall, with minimum scores of listening 19, writing 19, reading 19 and speaking 20. If you took a TOEFL test from 21 January 2026 onwards, when a new scoring system was introduced, you'll need 4.5 overall, with 4 or above in all components. TOEFL Home Edition not accepted.

---

### **Duolingo English Test**

125 overall, with writing not less than 125, speaking and reading not less than 115, and listening not below 110. For academic year 2025/26 only, we will also accept the production, literacy, comprehension and conversation score set: 120 overall, with no component below 105.

---

### **Pearson PTE Academic**

61 overall, with no component below 59

---

### **LanguageCert Academic**

70 overall, with no skill below 65

---

### **PSI Skills for English**

B2 Pass with Merit in all bands

---

### **INDIA Standard XII**

National Curriculum (CBSE/ISC) - 75% and above in English. Accepted State Boards - 80% and above in English.

---

### **WAEC**

C6 or above

---

## **Pre-sessional English**

Do you need to complete a Pre-sessional English course to meet the English language requirements for this course?

The length of Pre-sessional English course you'll need to take depends on your current level of English language ability.

---

## Pre-sessional English in detail

If you don't meet our English language requirements, we can use your most recent IELTS score, or [the equivalent score in selected other English language tests](#), to determine the length of Pre-sessional English course you require.

Use the table below to check the course length you're likely to require for your current English language ability and see whether the course is available on campus or online.

Your most recent IELTS score	Pre-sessional English course length	On campus or online
6.0 overall, with writing at 6.0 and no component below 5.5	6 weeks	On campus or online
5.5 overall, with writing at 5.5 and no component below 5.0	10 weeks	On campus or online
5.5 overall, with no more than one component at 5.0	12 weeks	Online
5.5 overall, with no component below 5.0	20 weeks	On campus
5.0 overall, with no more than one component at 4.5	30 weeks	On campus
4.5 overall, with no more than one component at 4.0	40 weeks	On campus

If you've completed an alternative English language test to IELTS, we may be able to use this to assess your English language ability and determine the Pre-sessional English course length you require.

Please see our guide to [Pre-sessional English entry requirements](#) for IELTS 6.5 overall, with no component below 6.0, for further details.
