Entry requirements

The qualifications and exam results you'll need to apply for this course.

Postgraduate entry requirements

Professional experience

MBA Candidates are normally expected to have a minimum of 3 years' work experience in a professional or managerial capacity.

This should be evidenced by providing a copy of your current CV detailing your experience and achievements to date (this may include examples of key projects, managerial responsibilities, or leadership). Please ensure that you include dates of employment and job titles on your CV.

Preference will be given to those who can demonstrate that they have strong business and management experience.

Qualifications

Candidates will normally be expected to hold a 2:1 Honours degree (which may be in any discipline) from a UK university, or an equivalent professional qualification from a similar non-UK institution.

Non-graduates who possess extensive professional experience (more than 5 years) and/or a postgraduate qualification are encouraged to apply.

Non standard entry

Non standard entry relates to applicants who may not hold a degree or the required degree classification, but may have appropriate experience. We would still encourage applications if you have:

- Significant work experience (more than 5 years)
- No formal university degree
- Substantial record of achievement in business and leadership (for example accredited training courses, learning and development courses).

Each application is considered on a case-by-case basis and will include an informal, online interview with the MBA team. The interview is an opportunity to discuss your suitability for the MBA programme, as well as your experience and interest in the MBA programme.

Applicants should apply via the normal route. For more information on the non-standard entry process, please contact ulmsmba@liverpool.ac.uk.

Personal statement

The personal statement encourages applicants to write around 200 words for each of the following sections:

- Your reason for choosing to apply for an MBA programme
- Your reasons for choosing this particular programme
- Your future aims or career plan
- How the programme of study enables you to achieve this.

GMAT score

A GMAT score is not a mandatory requirement; however, we do encourage candidates who have undertaken the examination to submit their scores for consideration alongside other criteria during the admissions process.

We look for a balanced score across all components of the GMAT and will only accept scores which are still valid (attained within the last 5 years) by the time of entry to the programme.

International qualifications

Select your country or region to view specific entry requirements.

Many countries have a different education system to that of the UK, meaning your qualifications may not meet our entry requirements. Completing your Foundation Certificate, such as that offered by the University of Liverpool International College, means you're guaranteed a place on your chosen course.

English language requirements

You'll need to demonstrate competence in the use of English language, unless you're from a majority English speaking country.

We accept a variety of international language tests and country-specific qualifications.

International applicants who do not meet the minimum required standard of English language can complete one of our [Pre-Sessional English courses](#) to achieve the required level.
