

UNIVERSITY OF  
LIVERPOOL

BEng (Hons)

# Mechanical Engineering

UCAS code H300

## Entry requirements

A level: AAB

## Study mode

Full-time

## Duration

3 years

Apply by: **14 January 2026**

Starts on: **28 September 2026**

## About this course

Study Mechanical Engineering and learn to design, build and test new products, processes and systems. You'll develop holistic engineering knowledge and problem solving abilities as you work towards an industry-accredited degree that's sought after in a wide range of sectors.

## Introduction

Mechanical engineering is one of the oldest and broadest engineering disciplines and is the basis for a wide range of careers in engineering and beyond.

Our professionally accredited Mechanical Engineering programme offers an exciting blend of learning experiences. You'll master the fundamentals of mechanical engineering science and develop the skills, attitudes and experience demanded by 21st century engineering and society. You'll spend as much time outside the lecture theatre as possible, working in teams to apply your learning in the solution of practical problems. Graduates are well prepared for their careers ahead, and industry recognises them as highly employable.

Mechanical engineering students learn a wide range of theory and skills. This includes engineering science and practical skills such as project management and computer programming.

You'll learn in a modern, well-equipped environment that includes up-to-date laboratories, tools and computing hardware and software.

This programme also has a year abroad option, an incredible opportunity to spend an academic year at one of our partner universities.

---

## **What you'll learn**

- Design, build and test products and systems
  - Mechanical engineering scientific fundamentals
  - Thermodynamics
  - Fluid and solid mechanics
  - Dynamic systems
  - Materials
  - Electronics and mathematics
  - Project management
  - Computer programming
  - Engineering design
  - Collaborative design
- 

## **Accreditation**

Mechanical engineering programmes are accredited (or pending accreditation), by the Institution of Mechanical Engineers. They're a recognised qualification on the route to Chartered Engineer status.

---

### **Accreditation in detail**

## **Institution of Mechanical Engineers**

All mechanical engineering programmes are accredited, or pending accreditation, by the Institution of Mechanical Engineers. This is the professional body for Mechanical Engineers. Our programmes are a recognised qualification on the route to Chartered Engineer status.

# Course content

Discover what you'll learn, what you'll study, and how you'll be taught and assessed.

---

## Year one

Years one and two give students the scientific understanding underpinning the practice of professional engineering. You'll also learn about project management, computer programming, and engineering design.

## Modules

Compulsory modules	Credits
<a href="#"><u>MECHANICAL PRODUCT DISSECTION (MECH109)</u></a>	7.5
<a href="#"><u>SOLIDS AND STRUCTURES 1 (ENGG110)</u></a>	15
<a href="#"><u>PROFESSIONAL ENGINEERING: A SKILLS TOOLKIT (ENGG111)</u></a>	30
<a href="#"><u>ENERGY SCIENCE (ENGG116)</u></a>	15
<a href="#"><u>DIGITAL ENGINEERING (ENGG125)</u></a>	15
<a href="#"><u>ENGINEERING MATHEMATICS (ENGG198)</u></a>	22.5
<a href="#"><u>INTRODUCTION TO ENGINEERING MATERIALS (MATS105)</u></a>	15

Programme details and modules listed are illustrative only and subject to change.

---

## Year two

Years one and two give students the scientific understanding underpinning the practice of professional engineering. You'll also learn about project management, computer programming, and engineering design.

## Modules

Compulsory modules	Credits
<a href="#"><u>AEROENGINES (AERO213)</u></a>	15
<a href="#"><u>ENGINEERING DESIGN (MECH212)</u></a>	15
<a href="#"><u>DYNAMIC SYSTEMS (MECH215)</u></a>	15
<a href="#"><u>THERMODYNAMICS (MECH217)</u></a>	15
<a href="#"><u>PROJECT MANAGEMENT (MNGT202)</u></a>	7.5
<a href="#"><u>EXPERIMENTAL METHODS (ENGG201)</u></a>	7.5
<a href="#"><u>SOLIDS &amp; STRUCTURES 2 (ENGG209)</u></a>	15
<a href="#"><u>ENGINEERING MATHEMATICS AND COMPUTING (ENGG295)</u></a>	15
<a href="#"><u>ENGINEERING MATERIALS PROCESSING &amp; SELECTION (MATS201)</u></a>	15

Programme details and modules listed are illustrative only and subject to change.

## Year three

In year three, you'll study advanced engineering science and undertake a 300-hour research project on a topic of your choice.

## Modules

Compulsory modules	Credits
<a href="#"><u>INDIVIDUAL PROJECT (ENGG341)</u></a>	30
<a href="#"><u>HEAT TRANSFER (MECH301)</u></a>	15
<a href="#"><u>VIBRATION AND CONTROL (MECH303)</u></a>	15
<a href="#"><u>MECHATRONICS (MECH316)</u></a>	7.5
<a href="#"><u>ENGINEERING FLUID MECHANICS (MECH326)</u></a>	15
<a href="#"><u>ADVANCED MODERN MANAGEMENT (MNGT352)</u></a>	7.5
<a href="#"><u>COMPUTATIONAL METHODS IN ENGINEERING (ENGG386)</u></a>	15
Optional modules	Credits
<a href="#"><u>ADDITIVE MANUFACTURING (MNFG303)</u></a>	15
<a href="#"><u>BIOENGINEERING (ENGG305)</u></a>	15

Programme details and modules listed are illustrative only and subject to change.

## Teaching and assessment

### How you'll learn

We are leading the UK's involvement in the international [Conceive-Design-Implement-Operate \(CDIO\)](#) initiative – an innovative educational framework for producing the next generation of engineers.

Our degree programmes encompass the development of a holistic, systems approach to engineering. Technical knowledge and skills are complemented by a sound appreciation of the life-cycle processes involved in engineering and an

awareness of the ethical, safety, environmental, economic, and social considerations involved in practicing as a professional engineer.

You will be taught through a combination of face-to-face teaching in group lectures, laboratory sessions, tutorials, and seminars. Our programmes include a substantial practical component, with an increasing emphasis on project work as you progress through to the final year. You will be supported throughout by an individual academic adviser.

## How you're assessed

Assessment takes many forms, each appropriate to the learning outcomes of the particular module studied. The main modes of assessment are coursework and examination. Depending on the modules taken, you may encounter project work, presentations (individual and/or group), and specific tests or tasks focused on solidifying learning outcomes.

## Liverpool Hallmarks

We have a distinctive approach to education, the Liverpool Curriculum Framework, which focuses on research-connected teaching, active learning, and authentic assessment to ensure our students graduate as digitally fluent and confident global citizens.

The Liverpool Curriculum framework sets out our distinctive approach to education. Our teaching staff support our students to develop academic knowledge, skills, and understanding alongside our **graduate attributes**:

- Digital fluency
- Confidence
- Global citizenship

Our curriculum is characterised by the three **Liverpool Hallmarks**:

- Research-connected teaching
- Active learning
- Authentic assessment

All this is underpinned by our core value of **inclusivity** and commitment to providing a curriculum that is accessible to all students.

# Careers and employability

Mechanical engineering graduates are sought after in engineering fields and a wide range of other sectors. Graduates go on to work in engineering fields including healthcare, food production, aerospace, construction, power generation and manufacturing.

Recent employers of Mechanical Engineering graduates include:

- Aerospace/Aviation: Airbus, British Airways, Jaguar Land Rover, Rolls Royce
- Engineering/Construction: Arup, Balfour Beatty, Bentley, Tata Steel, Mott Macdonald, Mouchel, Pilkington, Siemens, Tarmac
- Defense/Military: BAE Systems, British Army, Royal Air Force, Royal Navy
- Utilities/Energy: National Grid, National Nuclear Laboratory, United Utilities
- Transportation/Infrastructure: Highways Agency, Network Rail.

---

# Fees and funding

Your tuition fees, funding your studies, and other costs to consider.

## Tuition fees

### UK fees (applies to Channel Islands, Isle of Man and Republic of Ireland)

Full-time place, per year – £9,790

Year in industry fee – £1,905

Year abroad fee – £1,385 (applies to year in China)

### International fees

Full-time place, per year – £32,000

Year in industry fee – £1,905

Year abroad fee – £16,000 (applies to year in China)

The UK and international full-time fees shown are for the academic year 2026/27 (UK fees are subject to Parliamentary approval). UK year abroad and year in industry fees and international year in industry fees shown are for entry 2025, as 2026/27 fees have yet to be confirmed. Please be advised that tuition fees may increase each year for both UK and international students. For UK students, this will be subject to the government's regulated fee limits.

Tuition fees cover the cost of your teaching and assessment, operating facilities such as libraries, IT equipment, and access to academic and personal support. [Learn more about paying for your studies.](#)

## Additional costs

We understand that budgeting for your time at university is important, and we want to make sure you understand any course-related costs that are not covered by your tuition fee. This may include a laptop, books, or stationery. All safety equipment, other than boots, is provided free of charge by the department.

Find out more about the [additional study costs](#) that may apply to this course.

---

# Entry requirements

The qualifications and exam results you'll need to apply for this course.

---

## A levels

AAB

including Mathematics and a second science.

Applicants with the Extended Project Qualification (EPQ) are eligible for a reduction in grade requirements. For this course, the offer is **ABB** with **A** in the EPQ.

You may automatically qualify for reduced entry requirements through our contextual offers scheme. Based on your personal circumstances, you may automatically qualify for up to a two-grade reduction in the entry requirements needed for this course. When you apply, we consider a range of factors – such as where you live – to assess if you're eligible for a grade reduction. You don't have to make an application for a grade reduction – we'll do all the work.

Find out more about [how we make reduced grade offers](#).

If you don't meet the entry requirements, you may be able to complete a foundation year which would allow you to progress to this course.

Available foundation years:

- [Engineering Foundation \(4 year route including a Foundation Year at Carmel College\)](#) BEng (Hons)

---

## T levels

T levels are not currently accepted.

---

## GCSE

4/C in English and 4/C in Mathematics

---

## Subject requirements

Applicants following the modular Mathematics A Level must be studying A Level Physics or Further Mathematics as the second science (or must be studying at least one Mechanics module in their Mathematics A Level).

Accepted science subjects:

Applied ICT

Biology (and Human Biology)  
Chemistry  
Computer Science  
Economics  
Electronics  
Environmental Science  
Further Mathematics  
Geography  
Geology  
ICT  
Life and Health Sciences  
Mathematics  
Psychology  
Physics  
Statistics.

For applicants from England: For science A levels that include the separately graded practical endorsement, a "Pass" is required.

---

### **BTEC Level 3 National Extended Certificate**

Acceptable at grade Distinction\* alongside BB in A Level Mathematics and a second science.

---

### **BTEC Level 3 Diploma**

Distinction\* Distinction\* in relevant BTEC considered alongside A Level Mathematics grade B. Accepted BTECs include Aeronautical, Aerospace, Construction, Mechanical, Mechatronics and Engineering.

---

### **BTEC Level 3 National Extended Diploma**

D\*DD in acceptable BTEC, plus B in A level Maths (not accepted without B in A level Maths).

---

### **International Baccalaureate**

34 points overall and no score less than 4 and including 5 in HL Mathematics and 5 in HL Physics, or pass the IB Diploma with 6,6,5 in three Higher Level subjects, including 5 in HL Mathematics and 5 in HL Physics.

---

## Irish Leaving Certificate

H1,H1,H2,H2,H2,H3, including H2 in Higher Maths and Higher Second Science. We also require a minimum of H6 in Higher English or O3 in Ordinary English

---

## Scottish Higher/Advanced Higher

Pass Scottish Advanced Highers with grades AAB including Mathematics and a second science.

---

## Welsh Baccalaureate Advanced

B in the Welsh Baccalaureate, plus AA at A level, including Mathematics and a second science subject.

---

## Access

Pass Access to HE Diploma in a relevant with 45 Level 3 credits, with 36 at Distinction (including 15 Level 3 in Mathematics credits) and 9 at Merit.

---

## International qualifications

Select your country or region to view specific entry requirements.

If you hold a bachelor's degree or equivalent, but don't meet our entry requirements, you could be eligible for a Pre-Master's course. This is offered on campus at the [University of Liverpool International College](#), in partnership with Kaplan International Pathways. It's a specialist preparation course for postgraduate study, and when you pass the Pre-Master's at the required level with good attendance, you're guaranteed entry to a University of Liverpool master's degree.

---

## English language requirements

You'll need to demonstrate competence in the use of English language, unless you're from a [majority English speaking country](#).

We accept a variety of [international language tests](#) and [country-specific qualifications](#).

International applicants who do not meet the minimum required standard of English language can complete one of our [Pre-Sessional English courses](#) to achieve the required level.

---

### **IELTS**

6.0 overall, with no component below 5.5

---

### **TOEFL iBT**

78 overall, with minimum scores of listening 17, writing 17, reading 17 and speaking 19. TOEFL Home Edition not accepted.

---

### **Duolingo English Test**

115 overall, with speaking, reading and writing not less than 105, and listening not below 100

---

### **Pearson PTE Academic**

59 overall, with no component below 59

---

### **LanguageCert Academic**

65 overall, with no skill below 60

---

### **Cambridge IGCSE First Language English 0500**

Grade C overall, with a minimum of grade 2 in speaking and listening. Speaking and listening must be separately endorsed on the certificate.

---

### **Cambridge IGCSE First Language English 0990**

Grade 4 overall, with Merit in speaking and listening

---

### **Cambridge IGCSE Second Language English 0510/0511**

0510: Grade C overall, with a minimum of grade 2 in speaking. Speaking must be

separately endorsed on the certificate. 0511: Grade C overall.

---

### **Cambridge IGCSE Second Language English 0993/0991**

0993: Grade 5 overall, with a minimum of grade 2 in speaking. Speaking must be separately endorsed on the certificate. 0991: Grade 5 overall.

---

### **Cambridge ESOL Level 2/3 Advanced**

169 overall, with no paper below 162

---

### **International Baccalaureate English A: Literature or Language & Literature**

Grade 4 at Standard Level or grade 4 at Higher Level

---

### **International Baccalaureate English B**

Grade 6 at Standard Level or grade 5 at Higher Level

---

## **Pre-sessional English**

Do you need to complete a Pre-sessional English course to meet the English language requirements for this course?

The length of Pre-sessional English course you'll need to take depends on your current level of English language ability.

---

### **Pre-sessional English in detail**

If you don't meet our English language requirements, we can use your most recent IELTS score, or [the equivalent score in selected other English language tests](#), to determine the length of Pre-sessional English course you require.

Use the table below to check the course length you're likely to require for your current English language ability and see whether the course is available on campus or online.

<b>Your most recent IELTS score</b>	<b>Pre-sessional English course length</b>	<b>On campus or online</b>
5.5 overall, with no component below 5.5	6 weeks	On campus
5.5 overall, with no component below 5.0	10 weeks	On campus and online options available
5.0 overall, with no component below 5.0	12 weeks	On campus and online options available
5.0 overall, with no component below 4.5	20 weeks	On campus
4.5 overall, with no component below 4.5	30 weeks	On campus
4.0 overall, with no component below 4.0	40 weeks	On campus

If you've completed an alternative English language test to IELTS, we may be able to use this to assess your English language ability and determine the Pre-sessional English course length you require.

Please see our guide to [Pre-sessional English entry requirements](#) for IELTS 6.0 overall, with no component below 5.5, for further details.

## Alternative entry requirements

- If your qualification isn't listed here, or you're taking a combination of qualifications, [contact us](#) for advice
- [Applications from mature students](#) are welcome.
