About this course

This programme offers the same content as our three-year BA in Philosophy, Politics and Economics, but with the addition of a year in industry after the second year.

Introduction

A degree in Philosophy, Politics and Economics unites three disciplines that are foundational to public life and policy. Nowadays, anyone hoping to understand or advance in politics has to be proficient in economics, and an understanding of the philosophical underpinnings of the various political views that jostle on the public stage has long been recognised as hugely important.

Programme in detail

As with the three-year degree, this programme provides the opportunity to master the overlap of the three disciplines, to come to grips with some of their specialisms, to attain a very thorough grounding in mathematical economics, and to develop skills in identifying and evaluating the principles and values that underlie debates. The combination is highly sought

after by employers, who appreciate the breadth of knowledge and variety of skills that it provides.

Year one will comprise entirely of compulsory modules: four from Economics, and two each from Philosophy and Politics. In year two, as well as a range of Philosophy and Politics options, you will take some compulsory modules which include SOTA260, which will prepare you for your year in industry.

Your third year will be spent on a salaried placement in a role related to your studies, giving you the opportunity to apply skills and knowledge acquired during study to a real-life situation, thus developing key life and employability skills.

In your final year you will undertake a PPE-focused dissertation, and then optional modules from each of the three subjects.

What you'll learn

- Advanced numeracy and literacy skills
- Creative, critical, and independent thinking
- Flexibility and adaptability
- Efficient time and information management
- The ability to organise and present a persuasive case
- The ability to devise and sustain arguments, and solve problems
- Systematic knowledge and critical understanding of key aspects of Philosophy, Politics and Economics

Teaching and assessment

How you'll learn

In studying Philosophy, you will learn how to defend your views with reasoned arguments, and to assess the arguments of others. Argumentative skills are learned through attending lectures and reading philosophical texts, developed by group seminar discussions, and formally assessed through essays and exams. You will complete modules to the value of 120 credits per year, from a wide range of options available. Most modules employ a blend of lectures, seminars, and online support materials. You will learn by reading and studying outside class time, by attending and participating in classes, by doing coursework and, for dissertations, via one-to-one meetings with a supervisor. There is also scope, both formally in the placement module and informally, for you to develop practical skills by volunteering.

How you're assessed

Philosophy employs a mixture of modes of assessment: exams and coursework in many different varieties including essays, oral presentations, dissertations, exercises, and supported independent work (eg in the placement module).

Pre-sessional English

Do you need to complete a Pre-sessional English course to meet the English language requirements for this course?

The length of Pre-sessional English course you'll need to take depends on your current level of English language ability.

Pre-sessional English in detail

If you don't meet our English language requirements, we can use your most recent IELTS score, or [the equivalent score in selected other English language tests](#), to determine the length of Pre-sessional English course you require.

Use the table below to check the course length you're likely to require for your current English language ability and see whether the course is available on campus or online.

| Your most recent IELTS score | Pre-sessional English course length | On campus or online |
|---|--|----------------------------|
| 6.0 overall, with no component below 5.5 | 6 weeks | On campus or online |
| 5.5 overall, with no more than one component at 5.0 | 10 weeks | On campus or online |
| 5.5 overall, with no component below 5.0 | 12 weeks | Online |
| 5.0 overall, with no component below 5.0 | 20 weeks | On campus |
| 5.0 overall, with no component below 4.5 | 30 weeks | On campus |
| 4.5 overall, with no more than one component at 4.0 | 40 weeks | On campus |

If you've completed an alternative English language test to IELTS, we may be able to use this to assess your English language ability and determine the Pre-sessional English course length you require.

Please see our guide to [Pre-sessional English entry requirements](#) for IELTS 6.5 overall, with no component below 5.5, for further details.
