Teaching and assessment

How you'll learn

The programme is delivered through a combination of lectures, tutorials and seminars. You will also complete extensive individual work under supervision. The modules will increasingly challenge you, as you progress through the course, to engage with current debates, think critically and study independently.

The teaching approach is interactive. To help model best practice in teaching English to speakers of other languages, the programme will maximise your participation in taught sessions through discovery learning and group activities.

How you're assessed

You will be assessed through a variety of essays and written assignments, including portfolios of coursework. You will also produce a research proposal and complete a substantial research project.

Most modules also include unassessed coursework tasks. These range from the analysis of language and the evaluation or production of teaching materials to the preparation and delivery of a micro-teaching activity.
