

O'Donnell + Tuomey
More Space for Architecture

robert maxwell memorial lectures

Sheila O'Donnell + John Tuomey's lecture *More Space for Architecture* will present recent work, public buildings on site and social and educational projects in the making. They will discuss aspects of architectural design, their understanding of the relationship of buildings to place and their sense of the practical and poetical purposes of architecture. The lecture will illustrate how architectural ideas are developed from concept sketches, working models and detail design through to construction on site. O'Donnell + Tuomey are currently working on the new extension to the School of Architecture at the University of Liverpool.

robert maxwell memorial lectures

Thursday 29 September 2022, 6pm BST [1pm EDT]
