AUTHENTIC ASSESSMENT
A GUIDE TO DESIGNING A&I

WHY?
- Closes competency gaps (between education & professionals).
- Focuses on higher order thinking.
- Motivates students.

Assess factual, procedural & conditional knowledge.

Tasks resemble "real world" experiences.

Communicate task to a specific audience.

Key elements to designing A&I:

Challenges & Resources:
- Hard to align to certain disciplines.
- Not all students follow the most common career path.
- Need to build in design time.

Support:
- Use a rubric for guidance.
- Seek support from your colleagues.
- Share knowledge and resources.

Build confidence
Involving local groups
Working across disciplines
Realistic expectations
Encourage creativity
