13:00 - 14:00 BST
Islands of Innovation

08:00 - 20:00 (BST) | Tuesday 10 May 2022

A collaborative festival connecting educators, educational developers and learning technologists across the globe. In this open space, educators will share innovation and co-create an imagined future of education.

Online, open and free event. You can join activities throughout the day depending on your time zone.

Visit the Islands of Innovation website for more information
The theme of the event will be ‘Student Inclusion and Belonging’. Students’ experience of loneliness and a lack of ‘belonging’ to their University environment has been well documented since the start of the pandemic (Arslan, 2021; ONS, 2021). A combination of national and local lock downs, combined with the pivot to online teaching in 2019 and 2020 has left students with limited opportunities to build relationships with their peers and Faculty members. This has had a damaging effect on students’ mental health and experience of University.
We offer Bespoke Workshops

Curriculum Design | Assessment & Feedback | Multimedia-focused | EDI/Inclusive practice | ESD | Digital Education

Can’t make it to a workshop? Want to make changes to your programme? Keen to try new teaching approaches in your module team?

We offer bespoke workshops for programme teams, departments, or any group of staff at a time and place to suit you.
