

APØELLO

Digital discovery for organic sensor & electronic materials

WHAT WE OFFER

- A first-of-its-kind digital environment focused on organic materials discovery and design
- Replace trial-and-error with instant discovery compressing R&D from months to days
- Instantly discover materials for organic sensors that detect gases, pressure, humidity, temperature, or light ideal for medtech & wearables
- Search materials by property efficiency, toxicity, stability, solubility

BUILT FOR

Wearables & Diagnostics

Photodynamic Therapy

Next-Gen Sunscreens

Environmental & industrial sensing
