

Declaration of accommodation arrangements

At the English Language Centre, we take our responsibility for under 18s seriously. Our under 18s policy states that any student who is under 18 at the start of the course, must live either in homestay accommodation provided by a British Council accredited accommodation agency or with a responsible adult who is well-established in the UK.

We expect any responsible adult with whom you choose to live to undertake to do the following:

- The responsible adult must always be present overnight when you are.
- The responsible adult must not be accommodating any people over the age of 18 to whom either you or they are not related.
- The responsible adult must take reasonable care that you do not engage in any activity which is dangerous or illegal and must undertake to inform your UK based guardian if he or she suspects this is happening.

If you have decided to live with a responsible adult who can fulfil the duties above, please declare them below:

Full name of responsible adult

Relationship to Student.....

Intended Liverpool address.....

Responsible adult's telephone number.....

Responsible adult's email address.....

If you opt to live in homestay accommodation, then it is **mandatory** that you enrol with a British Council accredited accommodation agency. An example of such a company is Hosts International. (<http://www.hosts-international.com/>)

If a student chooses to use a British Council accredited accommodation agency, it is the parent's responsibility to ensure they are happy with the standard of care offered by the accommodation agency. The University is unable to take responsibility for the standard of care provided by external accommodation agencies. Parents must satisfy themselves that the services provided by the agency will meet their child's needs.

Please write the name of the homestay provider here and please include with this form, confirmation of your registration with them (e.g. a copy of your contract).

.....

The University may withdraw the offer of a place if we are not satisfied that accommodation arrangements are sufficient for the individual.

We are concerned that you eat a good diet while living in Liverpool. Please give us details of your meal arrangements, by ticking the statement below that applies.

My accommodation provider will supply all my meals

My parents/legal guardians have made other arrangements for my meals.

Signed (Student) Date.....

Signed (Parent/Guardian)..... Date.....
