

# HERDMAN SYMPOSIUM

**Saturday 22<sup>nd</sup> February 2014**

## GEOSCIENCE FRONTIERS 5

Multispectral false colour image of part of the Moon, showing the geological variation and effects of space weathering processes.

## List of Guest Speakers & Titles

(alphabetic)

**Prof Brian Bluck** (Glasgow) *"Putting Scotland together: the role of the Old Red Sandstone"*

**Prof Simon Conway Morris** (Cambridge) *"Eight evolutionary myths: The closing of the Darwinian mind?"*

**Dr James Hammond** (Imperial) *"Science without borders: Unravelling the mysteries of Mt. Paektu Volcano, North Korea"*

**Dr Katherine Joy** (Manchester) *"Moon impacts: unravelling the history of inner Solar System bombardment"*

**Prof Tim Lenton** (Exeter) *"Revolutions that made the Earth"*

**Prof Andrew Scott** (Royal Holloway) *"Wildfire: The burning issue - the geological history of fire"*

*The full programme with times and abstracts will be published in early January. The meeting starts at 9:30 am and ends at 5:00 pm, when there is a wine reception until 6:00 pm.*

*The non-member attendance fee is £10\*, payable at the door. This covers programme, decent buffet lunch, tea/coffee and wine reception. Persons requiring further details or to reserve places for this meeting (essential to track catering numbers) should contact Helen Kokelaar by email at: [herdman@liverpool.ac.uk](mailto:herdman@liverpool.ac.uk) \*School pupils attend free, by arrangement. The Sherrington Lecture Theatre venue is UoL building 311 on Ashton Street. See map at: <http://www.liv.ac.uk/files/docs/maps/liverpool-university-campus-map.pdf>*

The Herdman Society is the undergraduate society of the former Earth Sciences Department at the University of Liverpool. William Herdman was the founder and benefactor for the original Department of Geology. The Jane Herdman Laboratories were named for William's wife and the George Herdman Chair of Geology established in memory of their son.
