School of Health Sciences

PGC/ PGD/ MSc Advanced Practice in Healthcare

This is a flexible modular programme in Advanced Practice which has a selection of modules which can be used to create profession specific pathways of study for Nursing and the Allied Health Professions. Constituents of the programme include the context of advanced practice, research, leadership, and mentorship, work-based learning and a range of specialist modules of interest to the different health professions. It also includes a discipline specific dissertation study.

This programme recognises the bespoke needs of the Advanced Practitioner roles and will foster the development of an autonomous, critically reflective practitioner with the appropriate knowledge and skills to undertake their extended role.

Entry Requirements

Minimum UK entry requirement is a 2.2 Honours degree in a health or social care related subject from an accepted UK University or other Institute of Higher Education; or its international equivalent as recognised by NARIC and/or by the University’s International Recruitment Office.

Candidates with an appropriate professional qualification in health care and normally a minimum of two years post-qualification professional practice will also be considered for entry.

Accreditation of prior learning may be considered to a maximum of 1/3 of the credits for the award. Attendance will depend on the modules selected. Please discuss with programme leader.

Funding

This programme can be self or employer funded. We are advised that some places may also be funded by Health Education North West following a selection process. Expressions of Interest in funded places should be made to the University via your NHS employer.
