Physiotherapy Pre-registration MSc

Your Development
This course provides extensive opportunity for evidence-based learning and development of clinical skills applicable to real-life scenarios.

Flexible Learning
A flexible approach to teaching allows our students to learn and develop in both academic and practical environments.

People Power
We have over 100 staff who work tirelessly to develop our students into the best healthcare professionals in the country.

Career Prospects
Many graduates choose to work in the NHS but others may decide to find employment in industry, private practice, sport, research or teaching.

Course Details
This two-year accelerated programme will provide you with an excellent educational experience in both academic and clinical environments. We aim to develop our students’ ability to make a meaningful contribution within the communities in which they live and work.

Specifically, we strive to promote your development as a physiotherapist who is resilient, resourceful and capable of providing outstanding patient care in the current and future healthcare system.

Successful graduates will be eligible to apply for registration as a physiotherapist with the Health and Care Professions Council (HCPC) and to apply to become a professional member of the Chartered Society of Physiotherapy.
