Research Methods in Radiotherapy	RADT134	15	4		2
Foundations of Radiation Oncology and Patient Care 2 (Breast)	RADT121	30	4		2

- **Your Programme Handbook**

Programme handbooks will be available online when you begin the programme and you will be shown where to access these during the programme introduction in Welcome Week.

- **Your Peer Mentor**

First year students are allocated a peer mentor from the year above. As a mentee you will have the opportunity to meet with your mentor online during welcome week. They provide guidance, support and knowledge about the programme you are undertaking.

- **Your Academic Advisor**

All students at the University of Liverpool will be assigned a named academic member of staff as their Academic Advisor who will be with them throughout the programme. Their role is to develop a relationship with you; to provide information, advice and guidance on academic matters and to direct you to further sources of information on academic matters as well as the wide range of information, advice and guidance on non-academic matters available to students at Liverpool.

- **Uniforms**

Radiotherapy students are asked to purchase the following:-

- *A standard white laboratory coat for anatomy and physiology practical sessions. This can be purchased from any uniform shop or online retailer. Details of the practical sessions will be given during the induction period.*
- *Please note, the laboratory coat will not be required in semester 1 this year as the practical anatomy sessions will be delivered online, however they are planned to take place throughout the 3 years of the programme.*

Radiotherapy students are given 3 sets of clinical uniform. You will be sent information on how to order these online and they will be delivered to the university for you to collect during your simulation week. Additional uniforms are available for purchase.

- **Clinical Placement Site**

Students attend clinical placement sites in the North West region of England. You will be allocated a main placement site at one of the following centres, to include their associated satellite centres:

The Clatterbridge Cancer Centre NHS Foundation Trust, Liverpool

The Christie NHS Foundation Trust, Manchester

Rosemere Cancer Centre. Royal Preston Hospital, Preston.

Additional short placements will take place at Genesis Cancer Care, Sutton Coldfield and North Cumbria University Hospitals NHS Trust, Carlisle.

You have an online introduction to placement from the programme clinical facilitators scheduled during welcome week.

Following this, you will be asked to complete a placement preference form, giving reasons for your preferred location. You will then be assigned a placement based on your preferences and reasons, **please note that this may not be your first choice.**

- **Reading Lists for current Year 1 modules:**

Reading lists will be provided for each module that you study. Once you are registered, the links to these will be available to you through the learning platform and also through the university library online.

All essential resources will be available free of charge and online through the university library. There is no requirement for you to purchase books before starting on the programme, however if you have any questions, please do contact one of the programme team.
