Cancer Care MSc

In partnership with the NHS Clatterbridge Cancer Centre

Course Information

This programme has been created for registered nurses and other health professionals who provide care for people with a cancer diagnosis.

Through their choice of modules, students can tailor the programme to whichever area of oncology they’re interested in and undertake Master’s level study on a part-time basis. This means that they’re still able to fulfil their other professional commitments too.

Our course has been delicately tailored to ensure that it furthers the educational and professional development of our students to help drive forward practice improvements and ultimately advance cancer patient care.

For further information including: entry requirements; tuition fees and module breakdowns, visit: www.liverpool.ac.uk/study/postgraduate-taught/taught/cancer-care-msc/module-details/#cpd
