Introduction

Welcome to the Diversity & Equality Infographic Report covering the academic year 2019 to 2020.

The underpinning data in this report has come from the University data warehouse called Explorer. Student Data is for the academic year 2019-2020, and staff data is a snapshot date of January 2020.

A small amount of data has come from the Higher Education Statistics Agency, and this is only for the academic year 2018-2019. Where we have used HESA data this will be labelled.

Data is based on a Head Count (Explorer) or Full Personal Equivalent (HESA). What this means that that the data is based on people and not proportions of posts or people.

We have provided various types of data here, including job groups (e.g. manual or clerical), by pay grade (e.g. grade 7 or 10), by Faculty and by School. However, not all of this data is provided for every equality characteristic.

For student data we have provided some data by Undergraduate, Postgraduate etc., however, only undergraduate data has been used to provide detailed faculty and department level data.
