• **Post-referendum consultation by House of Lords EU Scrutiny Committee**

The Committee is consulting on how the Government’s position on proposals for European legislation should be checked. In particular, they are seeking responses to the following questions:

– Should any policy areas be subject to increased scrutiny?
– Are there areas where there should be a lighter touch?
– What are the pressing questions the European Scrutiny Committee should ask in dealing with policy proposals?
– How can Committee material be made more accessible and useful to third parties?
