## Liverpool Big Data Science Centre for Doctoral Training

### STFC School on Data Intensive Science 12-16 October 2020, Liverpool

**Topic:** This week-long School will provide PhD students that are active in data intensive science additional skills to support their research, help them make industry placements a success and provide advice concerning possible career pathways in industry. The event consists of hands-on workshops, plenary talks, group discussions and evening events.

**Fee:** The School is free to attend for STFC-funded PhD students, other students are welcome to attend.

Several scholarships for non-STFC funded early stage researchers will be available.

Further details can be found on the LIV.DAT homepage:
