

MATHS EDI CHAMPIONS

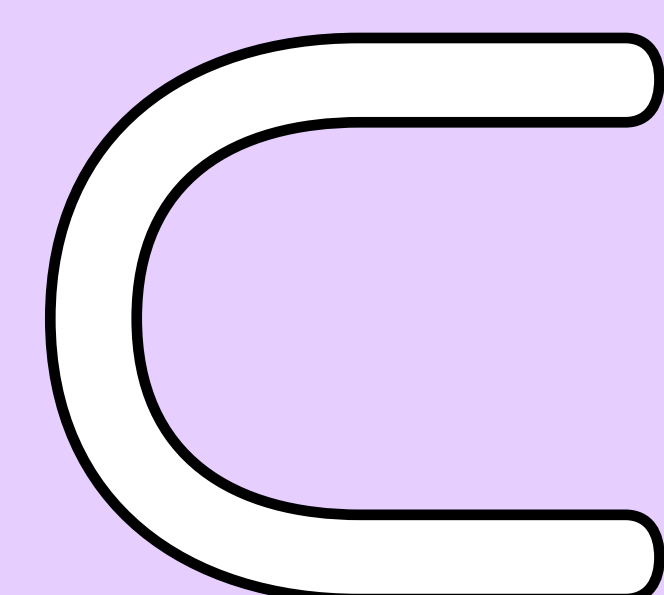

EQUALITY

We aim to create a space where everyone is treated in a fair way and has equal opportunities. Suitable training will be available to support you.

DIVERSITY

We recognise that working with people that have different backgrounds, identities and experiences adds a very positive value to our department. We celebrate our differences.

INCLUSION

Everyone must be respected and valued in our department. It is everyone's responsibility to actively promote a culture which is open and friendly to all.

Join the Maths EDI Champions Committee
and help make the Department of Mathematical Sciences
a better place for everyone!
