

HOW TO IMPROVE YOUR **GRAMMAR** SKILLS

What you could do	Practical examples
Follow a structure	Follow the structure of a course book from the Language Lounge, or ask a Language Adviser to guide you.
Master one point before moving on to the next	If something is not clear, consult a grammar reference book from the Language Lounge or ask our Language Advisers for help.
Learn from your mistakes	When work is returned to you, make a written note of recurring mistakes and comments. Re-write your work correctly.
Repeat and revise	Keep practising the same grammar point using a range of books and online sources until you have mastered it.
Notice grammar in context	Take note of the grammatical aspects of real texts, including songs, newspapers, and film dialogue. Copy the structures that you read and hear.
Practise using different grammatical styles	Try texts, films, and radio programmes that feature formal, colloquial, or regional language, and that cover a range of topics. Sign up for conversation exchange in the Language Lounge.
