

Record of Formal Training

The record lists the completed elements of the PGR Development programme for years up to Sept 2015. This record displays all modules in your University record for which you have registered in Liverpool Life since you began your research degree (MPhil/PhD/MD). However this record does not include attendance at training events that are recorded outside Liverpool Life.

From Oct 2015 onwards there is no longer a compulsory programme at University level.

All PGR students can still view the tool in Liverpool. If you are nearing completion the record may typically appear as below:

Path: [Liverpool PGR Toolbox](#) | Record of Formal Training
