

# LDC Development Core Programme 2019-20

## Themes and Dates

The following table lists all workshops and webinars that form the core LDC Development Programme, including the planned dates for delivery as of the date of issue.

Further events, including sessions provided by our PGR tutors, will be arranged during the year and new dates will appear in the [LDC Programme Timetable](#) on our website and in the LDC Newsletter. Changes and additions to the timetable will also be announced on our blog, [PGR News @Liverpool](#). PGRs can subscribe to the blog to receive further news by email.

**Registration** is open for all events for Autumn 2019. To book onto an event, click on the links in the Programme Timetable, which will redirect you to the relevant registration form on Eventbrite. The registration forms include a summary of each workshop or webinar.

Information on events not yet open for registration is available on the following webpage:

[List of Abstracts for all planned events](#)

**Programme themes:** In the list below the session titles are listed according to the following programme themes:

- Taking Ownership of your PhD
- Resilience
- Communication: Writing
- Communication: Presentations
- Research Productivity
- Creative & Critical Thinking
- Public Engagement
- Careers

[Full Theme descriptions and video introductions](#) - Further information on these themes can be found on our website, including the relationship between the themes and the national Researcher Development Framework:

**Workshop attendance:** All workshops take place on the University of Liverpool Campus and they have a limited number of places. Many workshops are fully booked with a waiting list. We ask that researchers only book a place if they are able to attend the session in full and they give us at least five days' notice if they are unable to attend so that we can offer the place to someone on the waiting list.
