

BIVI-IQ

Brain Injury Associated Visual Impairment Impact Questionnaire

The following questions are about the impact of vision problems following a brain injury on a person's quality of life.

Please select the response that best describes your current situation.

When answering the questions please think about your vision when **wearing your glasses or contact lenses**, if used.

Due to your **eyes or eyesight**, do you have difficulty with...

	No difficulty 0	Some difficulty 1	A lot of difficulty 2	Unable to do 3
1. Finding an item when surrounded by other things? e.g., an item on a cluttered table or a product on a supermarket shelf				
2. Using a computer, tablet or mobile phone?				
3. Looking after your appearance?				
4. Moving around? e.g., the ward, your home, further afield?				
5. Socialising? e.g., seeing people at visiting time or meeting up with friends and family				
6. Doing what you want to do?
