

## **Vulnerable**

Weathering the storm (feeling safe) –  
leaves shaken but roots not destabilized

## **Unnerved**

Draw strength from your core – the truck  
holding you standing up against the  
threat

## **Candour**

Branching out and through your roots to  
find new ground from which to operate

## **Awaken**

Embrace the new possibilities and shine  
light on others
