A100: Guidelines for Liverpool Scholars offering GCSEs/Science-based A-levels

We usually require:

Admissions Test: All non-graduate applicants applying to the A100 programme must take UKCAT. Details at www.ukcat.ac.uk and [https://www.liverpool.ac.uk/medicine/study-with-us/undergraduate/admissions-information/Academic qualifications](https://www.liverpool.ac.uk/medicine/study-with-us/undergraduate/admissions-information/Academic%20qualifications):

Evidence of excellent attainment in general and advanced secondary education.

- GCSEs in nine subjects attained by the end of Year 11 and
- Usually a score of at least 12 points (where A*/A = 2; B = 1) from the nine and including: Core & Additional Science (or Biology, Chemistry, and Physics), English Language, and Mathematics (all at least grade B, score of 6 deemed equivalent to grade B). Two points is the maximum score awarded in each subject area. (e.g. Only one of Maths and Further Maths will be considered and 2 points at most will be available for Dual Award GCSEs **except for** Dual Science for which up to 4 points may be awarded).
- Short course GCSEs will at most receive half the points of a full GCSE but two short courses can be offered in place of a full GCSE.
- Some qualifications which are not GCSEs may be awarded points as follows:
 - Level 2 DiDa: Dist/Merit = 2 points; Credit = 1 point
 - Level 2 CiDa: Dist/Merit = 1 point; Credit = 0.5 points
 - BTEC first Diplomas: Dist/Dist* = 2 points; Merit (or equivalent) = 1 point
 - OCR awards/BTEC First certificates: Dist/Dist* = 1 point; Merit (or equivalent) = 0.5
 - **BTEC qualifications and OCR awards are not acceptable replacements for English, Maths and Science subjects.**
- A-levels in three subjects taken at one sitting after 2 years of study at a minimum of ABB. Biology, Chemistry and a third academic subject required. General Studies and Critical Thinking are not considered to be academic subjects. The A grade needs to be offered in either Chemistry or Biology.
- Applications from candidates resitting advance level examinations may be considered if the applicant otherwise meets the GCSE criteria (as above). **Resit applicants must note any mitigating circumstances in both the academic reference and the Liverpool School of Medicine, Applicant On-line Form (the latter will be available on our web-site in September 2018).** If an offer is made resit applicants might be expected to achieve an A grade in any subject they are resitting. Resit applicants, who applied in the previous admissions cycle, are invited to contact us via mbchb@liverpool.ac.uk for advice. To be considered for a reduced offer for the medicine programme Scholars need to successfully complete the Scholars Programme.

Other attributes:

Evidence of appropriate experience, aptitude, and communication:

- Candidates must demonstrate suitable evidence of:
- health care career awareness/insight and
- a caring contribution to the community and
- a critical, coherent, and informative approach to written communication and
- the values that embody and underpin good healthcare practice

Please note:

- Applicants **must** read our Departmental Supplement to the Admissions Policy. Applications made through UCAS in the normal way. However for the 2018-19 admissions cycle an **additional on-line form** will need to be completed by certain groups of applicants. Please check our web-pages and Departmental Supplement to the Admissions Policy. www.liverpool.ac.uk/medicine/study-with-us/undergraduate/admissions-information/
- The above indicative criteria are the usual **minimum** required. Invitation to interview is highly competitive and both academic and non-academic criteria inform the selection process. Because of the competition, meeting the minimum academic and non-academic requirements does not guarantee that you will receive an offer of an interview. The Medical School reserves the right to vary offer conditions depending on a candidate's application.
- If an applicant fails to achieve a place on the A100 programme they may only make one further consecutive application to the programme.
- Applications may be considered from students entering the final year of study in degree programmes but we do not usually accept applications from current undergraduates or consider transfers into the medicine programmes. Please be advised that we do have specific criteria for A100 graduate applicants, and this can be found on our Admissions page.
- The selection procedure at Liverpool is a three stage process which is competitive at each stage. The threshold for progressing through each stage varies from year to year depending upon the quality and quantity of applications that year. No candidate will be made an offer without interview.
