

School of Medicine Admission Requirements

A100: Guidelines for applicants offering Scottish Qualifications Authority qualifications

We usually require:

Admissions Test: All non-graduate applicants applying to the A100 programme must take UKCAT. Details at www.ukcat.ac.uk and www.liverpool.ac.uk/medicine/study-with-us/undergraduate/admissions-information/

Academic qualifications:

Evidence of excellent attainment in general and advanced secondary education:

- Minimum of SCQF level National 5 (Intermediate 2) in Biology, Chemistry, Physics, English Language, Mathematics, and at least two others attained by the end of S4.
- Highers (SCQF level 6) in five subjects taken at one sitting after 1 year of study: comprising Biology (A) and Chemistry (A), and three others, minimum of **AAAAB**
- and Advanced Highers (SCQF level 7) in Biology (A) and Chemistry (A) **AA**
- Applicants resitting Advanced Highers may be considered if their application otherwise meets the criteria above. **Resit applicants must note any mitigating circumstances in both the academic reference and the Liverpool School of Medicine, Applicant On-line Form (the latter will be available on our web-site in September 2018).** It would be expected that resit applicants would exceed the grades expected in a 'typical offer'.

The Scottish Science Baccalaureate is not in itself sufficient to meet the required academic criteria.

Other attributes:

Evidence of appropriate experience, aptitude, and communication:

Candidates must demonstrate suitable evidence of:

- health care career awareness/insight and
- a caring contribution to the community and
- a critical, coherent, and informative approach to written communication and
- the values that embody and underpin good healthcare practice

Please note:

- Applicants **must** read our Departmental Supplement to the Admissions Policy. Applications made through UCAS in the normal way. However for the 2018-19 admissions cycle an **additional on-line form** will need to be completed by certain groups of applicants. Please check our web-pages and Departmental Supplement to the Admissions Policy. www.liverpool.ac.uk/medicine/study-with-us/undergraduate/admissions-information/
- The above indicative criteria are the usual **minimum** required. Invitation to interview is highly competitive and both academic and non-academic criteria inform the selection process. Because of the competition, meeting the minimum academic and non-academic requirements does not guarantee that you will receive an offer of an interview. The Medical School reserves the right to vary offer conditions depending on a candidate's application.
- If an applicant fails to achieve a place on the A100 programme they may only make one further consecutive application to the programme.
- Applications may be considered from students entering the final year of study in degree programmes but we do not usually accept applications from current undergraduates or consider transfers into the medicine programmes. Graduate applicants (i.e. those who already hold a minimum of a good 2:1 honours degree or who are on or about to enter the final year of a degree programme and have a degree award pending) would need to offer the GAMSAT admissions test
- The selection procedure at Liverpool is a three stage process which is competitive at each stage. The threshold for progressing through each stage varies from year to year depending upon the quality and quantity of applications that year. No candidate will be made an offer without interview. Further details of our selection procedure at: <http://www.liverpool.ac.uk/medicine/undergraduate/admissions>
