

## Medicine D – Haematology & Oncology - 1 week placement – Y4

Medicine D consists of 3 weeks based in palliative medicine and 1 week in oncology & haematology. Students should complete their eportfolio ready for you to view at least 48h before their meeting with you. As the placement in haematology and oncology lasts for just one week, please provide students with your contact details in their eportfolio. There is no requirement for an initial supervisor meeting.

Activity	Form	4.4 Medicine D Oncology & Haemato-oncology placement activities 2-week placement
