

EDI STEMinar

Equality, Diversity & Inclusion in STEM

Scattering atoms, electrons and perceptions

Dr Clara Barker (she/her)
University of Oxford
Department of Materials

Clara is a thin-film material scientist carrying out research in the Centre for Applied Superconductivity at Oxford University. She is a transgender woman and active advocate for LGBT+ diversity and women in STEM. She is Dean for Equality and Diversity at Linacre College and her volunteering work was recognised with a Points of Light Award in 2017. Since 2022, she is the Institute of Physics Inclusion and Diversity Representative.
