New MSc in Cancer Biology & Therapy

Why choose our programme?

Programme Director Dr Ainhoa Mielgo says:

- **This MSc in Cancer Biology & Therapy programme** takes a "bench to bedside" approach to enable students to work within a multidisciplinary environment of world leading scientists and cancer specialists to address the latest challenges in cancer research.
- **Cancer is a complex disease** that affects 1 in 2 people. In Liverpool, we are passionate about cancer research. We are committed to both, find better treatments for cancer patients and train the next generation of cancer researchers.
- **As part of this programme you will have the opportunity** to join a research team and pursue a research project where you will be exposed to the latest cutting-edge technologies used for cancer research.
- **You will also meet experts working in cancer clinical trials and in pharmaceutical companies** allowing you to explore career opportunities in academia, the NHS and the private sector.
