

UNIVERSITY OF
LIVERPOOL

POSTGRADUATE OPEN EVENT

Wednesday 11 March 2026

3-6pm
University of Liverpool

We are the original redbrick
liverpool.ac.uk

Welcome to our Postgraduate Open Event

This event is your chance to explore the exciting range of postgraduate study options we offer at Liverpool. We encourage you to attend talks and ask questions at our various exhibitions.

Central Teaching Labs (from 3pm)

The event starts in our **Central Teaching Labs** where our Student Support Exhibition will be open from 3pm. Make your way to a Welcome Desk to check in and pick up a guide. From there our friendly staff and Student Advocates will direct you to your relevant activity.

Faculty Information Fairs and Talks (from 3.45pm)

Our faculty activity will begin from 3.45pm. See faculty pages for specific start and finish times. Student Advocates and faculty colleagues will help you to get between the Central Teaching Labs and your subject-specific spaces. Find out where you'll be going below:

- Faculty of Health and Life Sciences:
Central Teaching Labs
- Faculty of Humanities and Social Sciences:
502 Teaching Hub
- Faculty of Science and Engineering:
Central Teaching Labs.

You can find out about the different subject areas represented in each of our faculty information fairs on pages 03 to 05. If you need any help finding locations, there's a map on page 06. You can follow the signposting around campus, or ask one of our team to show you the way. Keep an eye out for our Student Advocates who will be around campus too to help you with any directions (they're dressed in bright pink vests – you can't miss them!).

We're here to help.

Student Support Exhibition

Call in any time between 3pm and 6pm to pick up information and talk to staff and University representatives about the support available to you as a postgraduate student. **Location: Central Teaching Labs**  

There will be stands with representatives from Accommodation, Libraries, Careers and Employability, Student Services, Admissions, Finance and Funding, and PGR, as well as an 'Ask us Anything' stand where you can ask our current students any questions you may have. If you are interested in applying for postgraduate study, you can speak to our Admissions Team today who will be making provisional offers for several master's courses. If you have already submitted an application, they may be able to make you a formal offer.

You will also be able to discover more about the free study skills support available to you from the University of Liverpool's English Language Centre.

General information activities

Today's event begins with our general information talks followed by subject specific talks (see pages 03–05).

Why study a master's at Liverpool?

Discover more about studying at and applying to the University of Liverpool for postgraduate study.

Location: Lecture Theatre A, First Floor, Central Teaching Hub

Time: 3.15–3.50pm

Why study a PhD at Liverpool?

Discover more about studying at and applying to the University of Liverpool for postgraduate research.

Location: Lecture Theatre A, First Floor, Central Teaching Hub

Time: 3.55–4.25pm

Campus tours

Join one of our campus tours that run at regular intervals throughout the event for an opportunity to see some of the main features of our campus and hear from one of our current students about life at Liverpool.

Location: Welcome Desk, Central Teaching Labs

Time: Running between 3.30–6pm (last tour leaving at 5.15pm)

Drop in: University of Liverpool Sports and Fitness Centre

Pop along to our sports centre to go on a tour of the facilities and chat to staff about the range of clubs, sports and activities on offer.

Location: Sports and Fitness Centre

Time: Drop in between 4pm and 6pm

View an example of our student accommodation

We have one of our postgraduate accommodation options open for you to view this evening from 3–6pm. Please speak to the Accommodation Team in the Central Teaching Labs on the evening for more information. They can also answer any questions you may have too.

Michael Gillin

MSc Digital Chemistry: AI, Machine Learning, Robotics and Automation, 2025

“Pursuing a master’s here was a no-brainer, as it meant I would have access to state-of-the-art facilities and could connect with experts in the scientific field. Having been in the department for my bachelor’s, every one of my lecturers is aware of my strengths, weaknesses, and my ambitions. Being experts in education and digital chemistry, they make the course feel inclusive and appropriately challenging to push us all to make the most out of our master’s. Completing an MSc has upskilled me, enabling me to apply for PhDs and high-level roles that require evidence of technical competency and practical communication skills.”
