This has been our mission since the University was founded in 1881 and it remains our mission today; a touchstone for all that we do. It underlines our belief in the transformative power of research and education, not least in the face of an increasingly complex and challenging world. As someone considering deepening your educational experience through postgraduate study, it is clear that you share this belief too and we encourage you to join us on this exciting journey.

For advancement of learning and ennoblement of life

This has been our mission since the University was founded in 1881 and it remains our mission today; a touchstone for all that we do. It underlines our belief in the transformative power of research and education, not least in the face of an increasingly complex and challenging world. As someone considering deepening your educational experience through postgraduate study, it is clear that you share this belief too and we encourage you to join us on this exciting journey.
We are the original redbrick university. Established in 1881: in this year Queen Victoria reigned over Great Britain and the UK had its first street lit with electric light.

Member of the Russell Group. Associate with nine Nobel Laureates.

Awarded a silver rating in the UK's Research Excellence Framework (REF), with seven subjects in the top 10.

£144 million in research project funding in 2016/17.

£600 million invested in our campus.

Top of Russell Group for graduate employability (DLHE 2016/17).

2,000+ active interdisciplinary research staff across three faculties.

33,000 students, 8,000 of whom travel from all over the world to study here.

Associated with nine Nobel Laureates.

Global links: We have a campus in London, are the largest provider of online degree programmes in Europe and we are the first UK university to establish a joint venture university in China.

20th in the UK’s Research Excellence Framework (REF), with seven subjects in the top 10.

95% of the University’s UK and EU postgraduates are in employment or further study six months after graduation (DLHE 2016/17).

£144 million in research project funding in 2016/17.

About the University of Liverpool
Progress to Postgraduate:
Get to where you want to be

At Liverpool you’ll gain a postgraduate qualification that is valued worldwide. Our master’s programmes can help you to specialise in the subject you’re passionate about, move in to a new field, or gain the qualifications and skills needed for your chosen career. But, more importantly, we can help you stand out from the crowd and achieve your ambitions.

Whether you’re building on your undergraduate subject or switching discipline, if you’re progressing straight from your undergraduate degree or returning to education, we offer a range of study options to suit you.

You can:
- Choose from full and part-time master’s programmes, postgraduate diplomas and certificates
- Study at our global campuses in Liverpool, London and Suzhou
- Study wherever you are in the world through our online degrees
- Continue your Professional Development with our CPD opportunities.

Whichever programme or route you choose you will advance your knowledge by accessing world-leading research whilst enhancing your career prospects.

So, why Liverpool?
Worldwide reputation for excellence
The University of Liverpool is one of the UK’s leading research institutions with an annual turnover of £523 million, including £95 million for research.

Associated with nine Nobel Laureates and consistently ranked in the top 200 universities worldwide, Liverpool is a member of the prestigious Russell Group of the UK’s leading research universities.

At the forefront of innovation and discovery, our academics and researchers are advancing knowledge to improve lives. Our interdisciplinary research, unique model for collaborations and cutting-edge facilities, enable our research community to create global solutions aiming to improve health, create wealth and ensure social justice.

We have globally recognised research strengths in Advanced Materials, Personalised Health, and Infection Diseases, and emerging strengths in Digital, Heritage, Energy, Healthy Living/Ageing, and Genome to Biological Systems.

By joining a research-led university you will benefit from a high-quality education, learning from inspirational figures who will challenge and encourage you throughout your studies.

Research led teaching
Our teaching, like our research, is at the forefront of knowledge and is delivered by leading and internationally renowned academics. As a master’s student you will be learning about the latest advances in your subject and will benefit from being part of a department that is contributing to these developments.

We also deliver research focused modules on all of our master’s programmes which equip you with the research and development skills needed, not only to successfully complete your dissertation, but to prepare you for your next steps whether that’s further research or employment.

Investment in your student experience
The University is committed to continually improving the quality of its student experience and, following significant large scale capital investment, we are transforming our campus to provide you with high quality learning and teaching spaces and research environments.

Your global network
From the moment you join us at Liverpool you will join our global network and benefit from its reach. You will meet and study with students from across the globe and establish life-long networks and friendships that extend beyond your time studying here.

As a connected global university we attract staff and students from over 130 countries worldwide and we also create opportunities for all our staff and students to explore international opportunities around the world too. We achieve this through our global network which includes physical and virtual campuses as well as our research and mobility partnerships.

Creating opportunities and making a difference
As well as creating opportunities for our students, we are committed to making our ground-breaking research and frontier technologies available to our collaborators, for the benefit of the regional and national economies.

We are driving the city’s knowledge economy through close collaboration with fellow universities, industry and the NHS, helping the Liverpool City Region to compete in the global business world.

And, we have been instrumental in Liverpool’s Knowledge Quarter Development, which aims to bring together key city partners to collaborate and close the economic gap with London.

The Knowledge Quarter Liverpool will:
- Be made up of 450 acres and will include the Materials Innovation Factory, Sensor City and the new Liverpool International College complex
- Support programmes to invest in the 54,000 students across Liverpool
- Deliver £1bn in income and 14,000 jobs to the city region.
The University of Liverpool in London

In 2014 we decided to take the spirit of the city of Liverpool and the University to another great city, London. London is the world’s number one student city, home to over 100,000 international students from over 200 different nations.*

We were the first non-London based Russell Group university to open a campus in London; and our centre for excellence, in the heart of the city’s financial district, offers innovative, professionally-focused CPD opportunities and master’s programmes in the areas of:

- Accounting
- Finance
- Business
- Communication
- Culture
- Design.

Our established professional, cultural, government and academic networks enable us to offer prospective and current students an unrivalled base from which to develop and explore a diverse range of opportunities.

*QS Best Student Cities 2018.

The quality of your postgraduate experience is our key priority – the University of Liverpool in London delivers a premium learning experience.

A carefully developed portfolio of programmes has been designed to produce highly-skilled, commercially aware, workforce-ready graduates; and our existing links with London-based employers, professional institutes and policy makers enable us to offer our students the opportunity to enhance their capability in one of the world’s most dynamic and inspiring cities.

All programmes are delivered by University of Liverpool staff, and benefit from the University’s research excellence, ensuring students study at the very forefront of knowledge in their discipline.

Master’s programmes taught at the London campus are listed on pages 36-40 of this guide.

For more information, visit www.liverpool.ac.uk/london

The chance to study a master’s at the University of Liverpool in London was life changing for me.

Maria Ximena Calderon Alvarez, Finance and Investment Management MSc

A big motivation for me to study at the University of Liverpool in London was to continue my personal development at a university with an excellent reputation in a vibrant city that is a hub for global business. I had previously benefited enormously from other experiences overseas such as work experience in the USA - I felt those experiences had taught me self-reliance and gave me independence – this was a chance to continue that personal development process and prepare for my career.

After a campus tour at the University of Liverpool in London, I knew the University would help me achieve my goals; I was really impressed and felt that the staff I had met were going to work very hard to provide my classmates and I with the knowledge, preparation and future opportunities we sought. The University also cared about diversity and inclusion which was appealing to me – my classmates came from a wide range of backgrounds which made for an excellent environment in which to study.
Online programmes

The University is the largest provider of 100% online postgraduate degree courses in Europe with over 8,000 students studying for Liverpool degrees around the world.

We offer 42 fully online postgraduate certificates, master's and doctoral degrees. They are designed for working professionals who want to advance by earning a degree directly from a world class university without having to travel, leave home or interrupt their career.

All programmes – postgraduate awards, certificates, master's and doctorates – are accessible 100% online, allowing you to study from where you are, alongside your job, as you:

- Gain the global knowledge and transferable skills you need to move ahead professionally, wherever you are in the world
- Expand your network as you connect and collaborate with experienced, international professionals.

The University offers online programmes that are relevant for careers in Management (including an online MBA), Computer Science, Health, Psychology, Law, and Education.

We work in partnership with online education experts Laureate Online Education, part of the Laureate International Universities global network of higher education institutions, to deliver our online degrees. Laureate delivers and administers the programmes. All final degrees are awarded directly from the University of Liverpool.

There is no single start date for online programmes. Each programme has regular start dates throughout the year, so you can start your course when it's most convenient for you. Postgraduate certificate programmes can be completed in one year. Students normally complete their master's programme within two to three years.

Our postgraduate awards, certificates and master's programmes are listed on pages 36-40 of this guide.

For more information, visit www.online.liverpool.ac.uk

A University of Liverpool degree in China

We are also unique in having established a joint Sino-British university, Xi'an Jiaotong-Liverpool University (XJTLU), in partnership with Xi'an Jiaotong University – a top 10 university in China. XJTLU has been a phenomenal success and has grown rapidly since it was established, with more than 10,000 undergraduate and postgraduate students now studying there. You can study a range of market-led taught programmes at the campus.

XJTLU offers a unique international educational experience, and brings together excellent research practice and expertise from both institutions, giving students the skills and knowledge they need to secure careers in a global marketplace.

Postgraduate programmes at XJTLU are all taught in English and lead to a master's degree from the University of Liverpool – so you truly get a Liverpool experience in China. Master's programmes start in September each year, typically taking 18 months to complete and, as with all our campuses, you will be fully supported throughout your time in China through a wide range of professional services that you'd expect from a world-leading university.

XJTLU is based in the world heritage city of Suzhou, which has a population of four million and is located half an hour from Shanghai by bullet train. The campus is located in Suzhou Industrial Park (SIP), one of Asia’s most successful business parks – a hub for foreign investors, and home to 3,300 international organisations, including 84 Fortune 500 companies. SIP provides opportunities for extensive research and knowledge exchange initiatives.

For more information about studying for a University of Liverpool in China degree and to see the full list of master's programmes available, visit www.xjtlu.edu.cn/en/find-a-programme

It's very convenient to be able to go to class anytime, anywhere and get access to the University library 24/7. I absolutely love that flexibility.

Nick Mawani
Master of Public Health (MPH)
Careers and Employability: Achieve your aspirations

Whatever your motivation for studying at master’s level our Careers & Employability Service is here to support you in achieving your aspirations.

We’re proud of our long standing relationship with the University of Liverpool

Gael Decoudu, Head of Data Science and Digital Analytics, ShopDirect

Our relationship seems to grow bigger and stronger every year. Having a world-class Russell Group university on our doorstep, especially one that puts emphasis on employability, is really important to us. There’s a focus on applying academic theory to real life scenarios at the University, which means the students we speak to are able to start thinking and innovating commercially.

We’ve hired some excellent students, from undergraduates to PhDs from STEM subjects, to bolster our customer intelligence teams. We’re also welcoming interns and MSc students for their final projects, developing research partnerships with the faculty on applied research topics and providing scholarships to PhD students. Conducting guest lectures has also allowed us to develop a two-way partnership.

In 2017, 78% of postgraduates were found to be in higher skilled jobs compared to 66% of graduates*

Department for Education: Graduate Labour Market Statistics 2017

We offer high-quality employability support during and after your time studying with us, blending advice, guidance and training and building on the existing expertise we have developed as one of the UK’s leading careers services.

Through a range of career management inputs, personal and professional development and access to industry experts and speakers, our aim is to match your needs and ambitions as they develop.

As well as face-to-face guidance and on-site sessions we also offer online support, webinars and guidance. All our activities are supported by a state-of-the-art interactive website, CareerHub.

We can help you with:
- Career planning
- Understanding the job market
- Making effective applications through CVs, letters and application forms
- Preparing for and attending job interviews
- Performing effectively at Assessment Centres
- Strengthening your networking skills, including digital networking
- Industry networking opportunities.

You will also benefit from our close links with industry. All our career and employability development activities are designed with considerable input from employers, and we hold key networking events throughout the year.

In recent years we have won several prestigious national awards including the AGCAS International Award for demonstrating an outstanding commitment and contribution to working with students, relevant employers and promoting internationalisation. For more information, visit www.liverpool.ac.uk/careers

On average, postgraduates earn £6,000 more per year than graduates*

Department for Education: Graduate Labour Market Statistics 2017

*Percentages based on all working age graduates and postgraduates.
Postgraduate study has allowed me to focus my career prospects whilst expanding my knowledge and lab-based skills. The master’s has provided opportunities that would not have been available to me otherwise, which I value greatly. Postgraduate study was an investment into my own future that paid off with the help of the University of Liverpool.

The company I now work for, 3D Life Prints, offered my cohort the opportunity for an industrial placement whilst at the University of Liverpool. I was fortunate enough to be taken on permanently upon the completion of my master’s. For me, I feel that studying Biomedical Engineering at the University of Liverpool was a direct link to industry and allowed me step into the profession I aspired to be in.

Postgraduate study broadens horizons whilst giving you a deeper understanding in your field of interest. Also, studying an accredited course, such as Biomedical Engineering MSc (Eng), places you in a very strong professional standing upon completion.

In summary, postgraduate study is a fulfilling and valuable experience for pursuing a career in both academia and industry – but be prepared to work for it!

Nick Turner, Biomedical Engineering MSc graduate

Nick is now a Lead Biomedical Engineer at 3D Life Prints where he undertook an industrial placement as part of his MSc.

Mwale Mutale is now a Senior Consultant at WSP, one of the world’s leading engineering professional services consulting firms.
Life on campus

Our master’s students are valued members of our student community who are supported through our professional services teams and encouraged to become active members of the Liverpool Guild of Students.

English language support
The English Language Centre (ELC) is the University’s specialist English language facility for international students.

If you need to improve your English before you start your master’s programme we offer specially designed Pre-sessional courses ranging from short intensive courses to all year round study. We also provide a free comprehensive programme of In-sessional English support to run alongside your master’s programme. These programmes can be discipline specific, focusing on relevant language used in particular subject areas, or general academic English suitable for all international students.

ELC is also a registered IELTS testing centre running over 20 tests a year and provides IELTS training year round. For more information, visit www.liverpool.ac.uk/english-language-centre

Learning resources
We have impressive on campus learning resources available to all our postgraduate students from our designated postgraduate study space, impressive libraries and high-tech computer services.

- 24 hour term-time opening
- Over 2 million books and 680,000 electronic books
- 65,000 electronic journals
- Special collections including the largest Science Fiction collection in Europe and rare books and manuscripts
- 2,400 PCs across campus
- Laptop loan service
- High speed Wi-Fi
- Access to our services online wherever you are
- 24 hour service desk
- Free email, file space and software
- Access course materials, submit assessments, contribute to discussions and group assignments through our virtual learning environment ‘VITAL’

For more information on our library services, visit www.liverpool.ac.uk/library. For more information on our computing services, visit www.liverpool.ac.uk/csd

Student Services Centre
We offer comprehensive support and welfare services to students through two teams: Student Welfare Advice and Guidance, and the Counselling and Mental Health Services.

Student Welfare Advice and Guidance
The team can offer you advice, support and information on a wide range of non-academic issues including finance, disability, issues relating to your general welfare and support for international students.

Counselling and Mental Health Services
The Counselling Service is here to help you address personal or emotional problems that get in the way of realising your full academic and personal potential. The service offers free and confidential advice to all students.

For more information on all of the advice and guidance available to you as a master’s student, visit www.liverpool.ac.uk/studentsupport/

The facilities at Liverpool are second to none. I have always found everything I need, whether that be workspace, study materials or advice.

Marianne Scott
Mathematical Sciences MSc

Open Languages
As a master's student you have the opportunity to learn a new language and open up your world even further through our Open Languages modules. Graduates who speak another language are in high demand in roles that extend well beyond interpretation and translation to encompass all elements of business transaction, international cooperation and politics. As a postgraduate student you can study language modules in French, German, Chinese (Mandarin), Italian, Spanish, Portuguese, Basque or Catalan as an extra-curricular option. For more information, visit [www.liverpool.ac.uk/languages](http://www.liverpool.ac.uk/languages)

Sport Liverpool
Whether you take part in organised activities or independent exercise, our sports services provide a great way to meet people, get connected and achieve a level of fitness and general well-being that can help you with the other, more demanding aspects of University life. For more information, visit [www.liverpool.ac.uk/sports](http://www.liverpool.ac.uk/sports)

Liverpool Guild of Students
As soon as you join the University of Liverpool, you automatically become a member of the Liverpool Guild of Students and from your first day as a student and throughout your university years, the Guild will make sure you enjoy your time at Liverpool. The Guild is led by students, and makes sure you’re at the heart of everything they do. For more information, visit [www.liverpoolguild.org](http://www.liverpoolguild.org)

Accommodation
We are fortunate in Liverpool to have a wide variety of accommodation for our postgraduate students, with good facilities and at reasonable prices.

University accommodation
The University’s postgraduate accommodation is located at Vine Court, Philharmonic Court and Dover Court, all of which are located on, or very close to, the University campus and just a short walk from the city centre.

Located on the city campus, Vine Court offers a mix of both catered and self-catering accommodation. Study bedrooms are all en-suite with a high speed broadband connection with shared social kitchen/diners and lounge areas. Vine Court has an excellent restaurant, laundrette and large student chill-out mezzanine and outdoor spaces for socialising. For around an extra £40 each week, the catered option provides a freshly cooked breakfast and 3-course dinner, fresh fruit and soft drinks from a large daily menu at our Liv 2 Eat restaurant.

Philharmonic Court offers self-catered en-suite rooms all with double beds arranged around a central courtyard. It has its own social space, on site laundry and study rooms. Rooms are all fully furnished, broadband-connected and finished to a high standard. The residence itself is gated with a private central courtyard, 24hr reception and on-site residential adviser team.

Dover Court is located to the North of our city campus and offers self-catered en-suite accommodation. The private single study bedrooms are all fully furnished, broadband-connected and en-suite, with five to six student rooms clustered around shared social kitchens and living rooms. There is also a large quiet study space just off the main reception.

For more information, visit [www.liverpool.ac.uk/accommodation/support/residential-adviser-team/](http://www.liverpool.ac.uk/accommodation/support/residential-adviser-team/)

Privately rented accommodation
Liverpool is a large city with a wide variety of rented accommodation available. Type and standard of accommodation in Liverpool varies considerably – and so does the cost. If possible, you should come to Liverpool a few weeks before your programme starts to look for a suitable place.

For information regarding private housing in Liverpool visit Liverpool Student Homes at [www.liverpoolstudenthomes.org/](http://www.liverpoolstudenthomes.org/)

Residential adviser opportunities
You can live at the heart of both our award winning campus and amazing city by becoming one of our Residential Advisers and save a minimum of £4,000 per year on accommodation! You’ll provide support and guidance to our undergraduate students, from dealing with anything from lost keys or illness to well-being concerns or news of a family bereavement. We will provide you with the necessary training and you will have 24/7 back-up from our professional student support teams. In return we can offer you accommodation at a reduced rate as well as the opportunity to gain some valuable experience to benefit your future career. For more information, visit [www.liverpool.ac.uk/accommodation/about-us/postgraduate](http://www.liverpool.ac.uk/accommodation/about-us/postgraduate)
Alumni Community

Globally connected for life
Your journey and relationship with the University doesn’t end once you graduate; quite the opposite! As a University of Liverpool graduate you will have access to a wide range of benefits and services including event invitations and our professional interest networks which offer professional development support. With more than 219,000 graduates located all over the world, the University of Liverpool boasts a thriving alumni community which will be invaluable throughout your university journey and beyond.

As a graduate you can:

CONNECT with alumni around the world by joining one of our professional, academic, and social networks or by attending one of our many events.

LEARN new skills through discounted CPD study, free online journal access, and webinars.

DEVELOP your career by joining our new global e-networking platform, Liverpool Connect, created exclusively for University of Liverpool alumni.

Liverpool Connect
Through Liverpool Connect you can benefit from the insight of our alumni community by networking and sharing professional experience. This online space allows you to network with other current students and graduates and share ‘insider’ information on job roles and career areas. If you’re looking for a contact in a particular industry or sector, or thinking of changing careers, our online eNetworking platform lists the details of many University of Liverpool alumni, locally, nationally and internationally, so that you can find the contact you need to advance your career or develop your business.

We are enormously proud of our global alumni family and are confident that your University of Liverpool degree will be of great benefit throughout your career.

To find out more, visit www.liverpool.ac.uk/alumni

Postgrad LIVE! 2019
We’re also delighted to be hosting Postgrad LIVE! at our Liverpool campus on Wednesday 13 February 2019.

Postgrad LIVE! is your chance to:

● Meet representatives from top universities both in the UK and abroad – all in one place!
● Get master’s and PhD application advice

Meet us

There are many ways to meet us to discuss the postgraduate opportunities we have on offer at the University of Liverpool.

Postgraduate Open Evenings
Join us at one of our Open Evenings to discover the exciting range of professional, creative and industry focused programmes that you could be studying in September 2019.

This year’s events are taking place on:
● Wednesday 28 November 2018
● Wednesday 20 March 2019

For more information and to register, visit www.liverpool.ac.uk/pg/openday

Virtual Open Day
If you are unable to visit the campus, our Virtual Open Day is an ideal way for you to explore the facilities we offer at our Liverpool and London campuses from wherever you are in the world.

To take a look, visit www.liverpool.ac.uk/virtual-open-day

Meet us where you are
We attend a number of postgraduate fairs and events both in the UK and across the globe throughout the year where you can speak to a University of Liverpool representative about our programmes and opportunities.

For details, visit www.liverpool.ac.uk/study/postgraduate-taught/meet-us

Other notable graduates include:

...the first female Director-General of MI5
...the first female judge to sit at the Old Bailey
...the first Chief executive of Hong Kong
...the founder of the Stirling prize for Architecture

However, we’re proud of every member of our alumni community and welcome you to join us.
Theatre and performance
Turn a corner in Liverpool and you will stumble across a theatre venue; the most renowned of which stage premieres by both local and international writers and host popular touring West End productions.

Music
Whether you prefer to see big names in stadium size venues or the newest unknown talent in underground clubs, Liverpool is the place to be. Classical music fans should not miss the world renowned Royal Liverpool Philharmonic Orchestra, led by the Chief Conductor and honorary Professor of the University of Liverpool, Vasily Petrenko.

Festivals
Year-round Liverpool draws crowds to its internationally acclaimed music and cultural festivals. Whether it’s to see live music at Liverpool Sound City, the Liverpool International Music Festival, Africa Oyé and Creamfields; embrace the energy and passion at Brouhaha, Homotopia, Brazilica and Liverpool Pride; or experience our heritage and culture at the Mersey River Festival and Liverpool Light Night, you can be sure Liverpool is always celebrating something!

Sport
Liverpool is synonymous with sport. Home to two of the Premiérship’s biggest football teams, Liverpool and Everton, both home grounds are a mile or so from the city centre. Aintree Racecourse is home to one of the highlights of the annual horse racing calendar, the Grand National. Locally there is County Cricket, golf on England’s ‘Golf Coast’, Rugby League at St Helens and Widnes, and ample opportunities for water sports on the coastal outskirts of the city.

Life in the city
There’s nowhere quite like Liverpool!
Our impressive waterfront is a UNESCO World Heritage Site, we are home to The Beatles, the Grand National and Liverpool and Everton football clubs. We also have more museums, theatres, galleries and listed buildings than any other city in the UK outside of London.

It’s a city which is home to 50,000 students with a vibrant cultural and social scene – from music, art, and theatre to sport, shopping, and nightlife.

Art and museums
Liverpool is an ‘art-lovers’ paradise; from old masters to modern masterpieces and cutting-edge film, photography and visual arts. Many of the city’s museums celebrate Liverpool’s rich and varied history.

Eating out
Aside from the many eateries dotted around campus, there is an incredible range of cafés, bistro’s and restaurants in Liverpool appealing to all tastes and budgets.

Nightlife
With over 250 city centre pubs and clubs, it is no surprise that the users of Trip Advisor voted Liverpool as Britain’s Best Nightlife Destination – everything is within walking distance in the city centre too!

Relaxing
In the south of the city you will find Calderstones and Sefton Parks and Lark Lane, home to chilled-out bars, restaurants and an eclectic mix of independent shops. Or head to the north of the city to find Formby which offers an unspoilt stretch of National Trust coastline, or to Crosby Beach to see Antony Gormley’s ‘Another Place’ installation of 100 life-size statues.

There really is something for everyone in Liverpool. To find out more download the free ‘It’s Liverpool’ app from the iOS App Store and Google Play itsliverpool.com/app

Sports

Locally there is County Cricket, golf on England’s ‘Golf Coast’, Rugby League at St Helens and Widnes, and ample opportunities for water sports on the coastal outskirts of the city.
Choosing your programme of study

The University is comprised of three faculties; the Faculty of Humanities and Social Sciences, the Faculty of Science and Engineering and the Faculty of Health and Life Sciences, and our strength lies in bringing together academics from across all our Faculties to produce interdisciplinary research that is globally relevant. We offer a diverse range of master’s programmes across all three Faculties that are powered by this cutting-edge research.

Designed for you
We know that our master’s students have different motivations for studying at this advanced level and we cater for all of their needs.

Most of the master’s programmes at our Liverpool and London campuses can be studied full-time over 12 months or part-time over two years, which is ideal if you’re an undergraduate progressing straight on to a master’s programme or an international student coming to the UK to study.

Typically, programmes start in September with taught modules taking place over two semesters, through to June the following year. Dissertations are completed over the summer and you graduate the following December.

For people who are in employment and trying to fit master’s study into their busy lifestyles, a number of our master’s programmes can be studied on a flexible basis as CPD modules, as a PG Certificate or a PG Diploma, allowing you to progress to the full master’s programme at your own pace. Alternatively, you can join the 8,000 students who are studying one of our postgraduate qualifications online.

Many of our programmes now include internships, are professionally accredited, and benefit from guest speakers from industry – all of which enhance your experience and prospects.

Look out for the following symbols when you’re browsing our master’s programmes online.

Professionally accredited
Internships available
Modules available as CPD

Entry requirements
For entry on to our master’s programmes, you will normally need a first class or 2:1 honour’s degree in a relevant subject or the international equivalent (as recognised by the National Recognition Information Centre (NARIC) or the University’s international recruitment office).

All applicants must have reached a minimum required standard of English language and are required to provide evidence of this.

Qualifications accepted by the University can be found on our International webpages. Please see www.liverpool.ac.uk/international for English Language requirements specific to your country.

Some programmes may have additional or specific entry requirements, so please check the master’s programme you are interested in before submitting your application.

How to apply
Once you have chosen your master’s programme(s), the easiest way to apply is online.
Go to www.liverpool.ac.uk/study/postgraduate-taught/applying

You’ll be required to submit your:
• University/degree transcripts and certificates
• Evidence of English language ability (International/EU applicants only; visit our website for details)
• A personal statement explaining why you want to undertake the programme and why you feel you are a suitable candidate
• Two references.

We encourage all students to apply for their chosen programme as soon as possible.
International students who require a visa to study in the UK should apply no later than 31st July of the year they wish to commence their studies.
UK and EU students should apply no later than 31st August.

An entry requirement for all programmes is an undergraduate degree or equivalent qualification that is globally relevant. We offer a diverse range of master’s across all our Faculties to produce interdisciplinary research and our strength lies in bringing together academics from Engineering and the Faculty of Health and Life Sciences, the Faculty of Science and Engineering.

Fees and Scholarships
Tuition fees
The University’s tuition fees represent excellent value for money for a Russell Group university.

Fees cover the cost of your tuition, registration, examinations (but not resits) and graduation. The level of fees you pay depends upon whether you are classified as a UK, EU or international student.

The fees for each of our master’s programmes are listed on pages 36 to 40.

Scholarships and awards
We also offer a range of generous scholarships and awards for UK, EU and international students; general awards, awards for students from particular regions and countries, and awards linked to the subject you want to study.

Scholarships and awards typically offer support towards tuition fees; including some full tuition fee waivers, but some offer support towards living costs too.

Whilst some scholarships and awards are automatically awarded to eligible students, others require you to apply and have an application deadline. So, if you do require financial support, we suggest that you start to research how you’re going to fund your master’s programme at least 12 months in advance of your start date.

Look out for the symbol for details of scholarships on our course webpages.

Postgraduate Progression Award
If you’re a current University of Liverpool undergraduate or alumni, including Study Abroad and Exchange students, progressing to either full or part-time postgraduate taught study you’re eligible to receive our Postgraduate Progression Award, a reduction in tuition fees.

For more information, visit www.liverpool.ac.uk/progress

Master’s Loans
If you plan to take a taught, research or professional master’s course in 2019, you may be able to get a Government Loan to help with course fees and living costs. In 2018 you could borrow up to £10,609, but this figure and the eligibility criteria may change for 2019.

For the very latest information on fees, including payment of fees and transferring funds from abroad, and loans and scholarships, visit www.liverpool.ac.uk/study/postgraduate-taught/finance
Challenging our world view

The Faculty of Humanities and Social Sciences is an important influencer in the social, political and cultural life of the city region and the UK, and makes a significant contribution to enhancing the University’s research profile.

The Faculty of Humanities and Social Sciences is made up of:

University of Liverpool Management School

School of the Arts
- Architecture
- Communication and Media
- English
- Music
- Philosophy.

School of Histories, Languages and Cultures
- Archaeology, Classics and Egyptology
- History
- Irish Studies
- Modern Languages and Cultures
- Politics.

School of Law and Social Justice
- Law
- Sociology, Social Policy and Criminology.

You can study both Master of Arts (MA) and Master of Science (MSc) programmes within the Faculty, as well as Master of Research (MRes) programmes, which involve more independent study than the MAs and MScs, and are often a route to PhD study.

Architecture, Communication and Media, and the University of Liverpool Management School offer programmes at both our Liverpool and London campuses and you can study some Law and Management programmes online.

Many of our master’s programmes are professionally accredited and we also offer a number of specialised and professional master’s degrees.

For details of all our master’s programmes, visit www.liverpool.ac.uk/study/postgraduate-taught

Spotlight on research
The battle against modern slavery

The transatlantic slave trade was the greatest forced migration in history with a lasting impact on Africa, South America, the US, Caribbean and Western Europe. There is now a pressing need to tell the stories related to this trade and to highlight their legacies and relevance to contemporary issues that affect us all. Sadly, slavery is not just confined to history – one measure estimated that in 2016 over 40 million people around the world were victims of modern forms of enslavement, including human trafficking, forced labour and forced marriage.

Liverpool was a major slaving port in the past, but has long since been a centre of research on slavery through the Centre for the Study of International Slavery (CSIS), a partnership between the University of Liverpool and National Museums Liverpool. Through this facility, Liverpool’s ‘dark heritage’ is today facilitating world-leading research into the abolition of modern slavery.

The University recently secured £2 million of funding for a four-year project to help combat slavery in Sub-Saharan Africa. The CSIS joins three of the main UK centres on research into slavery with leading anti-slavery Non Governmental Organisations (NGOs) and a range of partners across West and Central Africa in Ghana, Sierra Leone and the Democratic Republic of Congo.

Find out more about research at Liverpool at www.liverpool.ac.uk/research/research-at-liverpool/ and our work on modern slavery at www.liverpool.ac.uk/csis.

This new interdisciplinary network tackles one of the most significant global challenges facing humanity today and will explore how approaches from the arts and humanities can shift anti-slavery efforts towards a more community-engaged, human rights focus that delivers real development impacts.

Professor Alex Balch
Co-Director of the Centre for the Study of International Slavery (CSIS)

Spotlight on University of Liverpool Management School

The University of Liverpool Management School; making a difference from a vibrant and enterprising world city of culture.

AACSB-Accredited, the University of Liverpool Management School is in the top 5% of business schools worldwide. Regarded as one of the most rigorous assessments, many top global recruiters will only consider candidates from AACSB-Accredited schools – a clear signal that our programmes respond to the needs of business and meet specific standards of excellence.

From the moment you start your postgraduate programme you will have access to a specialist careers team which includes professionally qualified MSc Careers Advisers and a dedicated International Employer Engagement Officer.

We appreciate that as a postgraduate student your time will be precious, so careers support is designed to be convenient and responsive to your needs. Support is available through one-to-one appointments, online and on-campus workshops and seminars, careers fairs, and our Leaders of Tomorrow programme which helps our best and brightest MSc students take their first steps towards a rewarding, professional career.

See pages 36 to 40 for a full list of the master’s programmes we offer.

Our MSc programmes are designed for people who wish to begin their career in management, switch their career, or deepen their experience in a particular management area. The Management School is highly regarded in many world rankings and the majority of our master’s programmes are professionally accredited.

Before I decided to study my MSc at the University of Liverpool, I was a Marketing Manager in a Real Estate Company. After three and a half years, I wanted a change and decided to do a master’s degree in Entrepreneurship. The Management School’s Entrepreneurship MSc admits students from a range of disciplines and I found that this created diversity amongst the students.

Whilst at the Management School, two modules which have proven valuable for my career have been ‘Entrepreneurial Marketing’ and ‘Entrepreneurial Decision Making’. These modules helped me to transform academic knowledge into practical solutions which has been hugely beneficial. I have also developed my critical thinking skills. Now I cannot help but question, evaluate and try to find a different perspective on everything that I read.

During my studies, I often used the MSc Careers Adviser and she was extremely helpful and kind to me. She helped me to update my CV according to the UK requirements, write an appropriate covering letter as well as prepare professional and high quality application forms. I also worked as an International Student Ambassador during my studies. Working for the University on open days was a great experience and I really enjoyed being able to represent the University as an ambassador.

I currently head Startup Mexico in Merida which is Mexico’s first entrepreneurial super hub that has been designed to foster collaboration and innovation. It also hosts aspiring entrepreneurs, start-ups, seed funds, corporations and a variety of services aimed at newly created companies. As well as this, I teach Marketing and Entrepreneurship at Universidad Autónoma de Yucatán (UADY) which is a top graduate university in the south of Mexico. I really love mentoring and coaching up-and-coming entrepreneurs.

Lízbeth Mariánn Zumárraga Avila, MSc Entrepreneurship graduate

Lizbeth now heads up Startup Mexico and is a lecturer at Universidad Autónoma de Yucatán.
True innovation

The Faculty of Science and Engineering connects research strengths, technologies and experts from a unique, broad mix of disciplines. This allows us to develop innovative solutions and approaches to tackle many of today’s complex social, economic and environmental challenges.

Many of our master’s programmes are professionally accredited and we also offer a number of specialised and professional master’s degrees.

For details of all our master’s programmes, visit www.liverpool.ac.uk/study/postgraduate-taught

School of Electrical Engineering, Electronics and Computer Science
- Electrical Engineering and Electronics
- Computer Science.

School of Environmental Sciences
- Earth, Ocean and Ecological Sciences
- Geography and Planning.

School of Physical Sciences
- Chemistry
- Mathematical Sciences
- Physics.

You can study Master of Science (MSc) programmes within the Faculty, as well as Master of Research (MRes) programmes, which involve more independent study than an MSc, and are often a route to PhD study.

We also offer master’s programmes with a Year in Industry within the School of Electrical Engineering, Electronics and Computer Science.

Engineering, Geography and Planning, and Mathematical Sciences offer programmes at both our Liverpool and London campuses and you can study some Computer Science programmes online.

Spotlight on research
Pioneering the discovery of advanced materials

With our expertise in materials chemistry and computer-aided materials design we are pioneering the discovery of advanced materials. Using techniques underpinned by computer simulations and robotics, our work has applications in clean energy, sustainable living, manufacturing, healthcare, and consumer products. Our world-leading expertise, unique facilities and innovative attitude to interdisciplinary research will allow future research leaders to nurture their talent in this field.

Two key academic research groups, led by Professors Andy Cooper FRS and Matt Rosseinsky FRS, are creating innovative new materials with a range of uses; from porous molecular organic solids and liquids which can capture harmful pollutants to new materials for the harvesting, storage and conversion of low-carbon energy.

Our award-winning research expertise is backed by award-winning facilities. The Materials Innovation Factory (MIF) recently won Development of the Year at the NW Business Inside Liverpool City Region Property Awards, where the judges also noted the role the MIF will have in supporting the Liverpool economy.

Find out more about research at Liverpool at www.liverpool.ac.uk/research/research-at-liverpool/ and our interdisciplinary research on Advanced Materials at www.liverpool.ac.uk/research/research-themes/advanced-materials/
Spotlight on MSc Programmes with a Year in Industry

To meet the increasing demand for MSc students to have industry experience, the School of Electrical Engineering, Electronics and Computer Science has introduced six new MSc programmes with a year in industry.

Designed for graduates of the highest calibre, these MScs provide you with advanced knowledge and skills and give you the opportunity to put that knowledge into practice through valuable work experience during a one-year industrial placement.

The two-year MSc programmes all share the same taught modules with their equivalent one-year programme. However, unlike the one-year MSc, which includes an MSc project over the summer, the two-year programme includes an industrial project and placement in year two (either in the UK or overseas).

This opportunity to work in industry helps students to strengthen their career options by:
- Undertaking the project work in an industrial setting
- Applying theory learnt in the classroom to real-world practice
- Developing communication and interpersonal skills
- Building networks and knowledge which will be invaluable throughout your career.

The School of Electrical Engineering, Electronics and Computer Science is at the forefront of world-leading and internationally acclaimed research in this fast moving discipline. Our postgraduate master’s and research programmes offer high quality specialised training for graduates with Computer Science, Electrical Engineering or related science degrees.

See pages 36 to 40 for a full list of the master’s programmes we offer.

Studying at master’s level has enabled me to become more specialised in a particular area, building on the knowledge that I gained from my undergraduate degree. Having the chance to choose a year-long project in the area that I’m interested in with an expert in the field as a supervisor has been invaluable. It’s boosted my understanding and experiences in Telecommunications and Wireless Systems Engineering which will aid me in my future career prospects.

As an international student, I found there was a big difference between the culture and study pattern here than in my home country. However, the University of Liverpool provided warmth and support to help me to adapt and make adjustments to being a student in the UK. For example, all students are assigned an Academic Adviser and a senior student as a mentor, which is helpful for both academic and personal guidance, and the free English language support was fantastic.

Career wise, I accessed the huge amount of resources in the Careers & Employability Service and my tutor also gave me personalised career advice and tailored my CV for me.

Xingyu Yang, Telecommunications and Wireless Systems MSc with a Year in Industry graduate

Xingyu is currently undertaking his placement year as a junior web developer at The Hood Ltd.
Unrivalled expertise

The Faculty of Health and Life Sciences ranks among the top 100 universities in the world for clinical, pre-clinical and health subjects.

The Faculty is structured to bring together areas including Biological Sciences, Medicine, Psychology and Veterinary Science and to further promote the interdisciplinary and multidisciplinary approaches which are required for research excellence in the 21st century.

The Faculty is made up of eight institutes, five of which house research activities:

- Institute of Ageing and Chronic Disease
- Institute of Infection and Global Health
- Institute of Integrative Biology
- Institute of Psychology, Health and Society
- Institute of Translational Medicine

And, three of which lead on teaching and learning, as follows:

- Institute of Veterinary Sciences
- Institute of Clinical Sciences
  - School of Medicine
  - School of Dentistry
  - School of Health Sciences.
- Institute of Life and Human Sciences
  - School of Life Sciences
  - School of Psychology.

You can study some programmes in Medicine and Psychology both on campus in Liverpool and online. Veterinary Sciences also offer programmes online.

Many of our master’s programmes are professionally accredited and we also offer a number of specialised and professional master’s degrees.

All Schools within the Faculty offer a diverse and comprehensive range of CPD modules and options.

For details of all our master’s programmes, visit www.liverpool.ac.uk/study/postgraduate-taught

Spotlight on research
A global impact in infectious diseases

With over a century of established research in infectious diseases, the University of Liverpool is a recognised leader in the field of global health. The depth and breadth of our clinical expertise, together with our capabilities in translational science and facilities for undertaking preclinical work and clinical trials, ensures we are in a prime position to respond when new global threats emerge.

By understanding how pathogens cause disease, through to pioneering new diagnostics, treatments and vaccines, our Institute of Infection and Global Health works to advance knowledge of the most important global health challenges.

Dedicated to improving the health and wellbeing of humans and animals, the Institute is an international centre of excellence which seamlessly brings together doctors, veterinarians and scientists to collaborate on major pathogens such as Zika virus, Ebola virus and many others.

We are at the forefront of the ‘one health’ agenda. Our strong interdisciplinary approach brings together medical and veterinary science with a focus on emerging infectious diseases and zoonoses (diseases that spread from animals to humans).

Find out more about research at Liverpool at www.liverpool.ac.uk/research/research-at-liverpool/ and our interdisciplinary research on Infectious Diseases at www.liverpool.ac.uk/research/research-at-liverpool/research-themes/infectious-diseases/
I chose to study my master’s at Liverpool because I’d had a great experience during my undergraduate degree here having made valuable connections in the Department. However, the most important factor for me was the quality of the programme; it is thorough and equips students with the tools to become successful researchers. My master’s course was very small, so I enjoyed the interaction between lecturers and students. It allowed for stimulating classroom discussions and helped me to develop a deeper understanding of the topics at hand. It also allowed our course to become a tight-knit group who worked and socialised together. I had support from my tutors with my assignments, with choosing where to apply for further study and references.

My course specifically prepared me for social sciences research and was invaluable to me when applying to undertake my PhD. My advice to anyone considering postgraduate study is carefully consider your goals and what you aim to achieve. Then, choose your course to take you to this goal.

Céline Chalupa, Research Methods in Psychology MSc graduate
