

ULMS list of preferred subjects

We consider the subjects included in the list below to be good preparation to our degree courses. Where applicants have already achieved their A Level results and have narrowly missed our entry requirements, if places are available we may consider applicants who have two or more of these subjects in addition to using other information on the application to inform our decision. The information in the list refers to A Level subjects, but the advice about subjects is essentially true if you are taking other qualifications, although exceptions may apply. Please see our entrance requirements page for details.

Accounting	English Literature	Maths
Anthropology	English Lang & Lit	Music
Archaeology	Environmental Studies	Philosophy
Ancient History	Further Maths	Physics
Biology	Geography	Psychology
Business Studies/Applied	Geology	Religious Studies
Classics	Government & Politics	Science in Society
