## 1 Introduction

The University's vision, supported by its strategic framework, 'Liverpool 2031', is focused on delivering outstanding, research-connected teaching alongside a supportive student experience. We are committed to excellence in admissions, and to ensuring that our procedures adhere to the principles of fairness and transparency described in the [Schwartz Review](#). We welcome applications from all candidates with the potential to succeed in higher education. Our admissions practices are designed to ensure that applications are considered on the basis of applicants' achievements and potential to complete successfully their chosen programme of study.

We believe that the University is enhanced by the presence of a diverse student body that includes students both from within the UK and from overseas, and we actively seek to encourage applications from as wide a range of students as possible. We endeavour to ensure that we treat all applications fairly and according to the principles set out in this policy document.

## 2 Scope and Purpose of the Policy

This document is the overarching Undergraduate Admissions Policy for the University of Liverpool. It applies to applications for undergraduate study and Go Higher applications at the University of Liverpool, from both UK, and overseas applicants. It does **not** cover applications for study:

- at [University of Liverpool International College](#) (UoLIC)
- on the Psychology 2+2 programme offered in conjunction with [Wirral Metropolitan College](#)
- at the [Truman Bodden Law School in the Cayman Islands](#)

The Policy is supported by departmental supplements for the clinical subject areas, many of whose programmes are highly competitive and have very detailed entry criteria which must be met. These departmental supplements may be found on our website at:

- [School of Allied Health Professionals and Nursing](#)
- [School of Medicine](#)
- [School of Veterinary Science](#)
- [School of Dental Sciences](#)

The Policy is intended to provide information for applicants, their parents, supporters or advisers and for staff within the University of Liverpool, on the principles we apply to applications for undergraduate study. It outlines the University's approach to a number of matters relating to the processing of applications, and explains the institutional, national and legal context within which the admissions function operates.

## 3 Policy and Legal Context

The Policy should be read in conjunction with other material published by the University, both in hard copy and online, including:

- [Academic Technology Approval Scheme \(ATAS\)](#)

- [Admissions Privacy Statement](#)
- [Disability Support](#)
- [Diversity and Equality](#)
- [English Language Requirements](#)
- [International Qualifications](#)
- [Ordinances and Regulations](#)
- [Undergraduate Prospectus](#)
- [Student Charter](#)
- [Annual Annexe to the Student Charter](#)
- [Student Protection Plan](#)
- [Terms and Conditions](#)

Full details of the Ordinances and Regulations which relate to admission as an undergraduate student are contained in the University's Calendar, available on our [website](#).

Our approach to admissions considers the requirements of the Equality Act 2010.

The University is committed to providing an environment free from discrimination, bullying, harassment or victimisation, where all members of its community, including those who seek to apply to the University, are treated with respect.

We are committed to providing equality of opportunity for all, irrespective of:

- age
- disability
- ethnicity
- gender
- religion, belief
- sexual orientation (including civil partnership status).

In addition to the statutory duties imposed by the Equality Act, the University is also guided by the principles set out in a number of Government-led reviews of Higher Education, and in particular the Report of the Admissions to Higher Education Steering Group, chaired by Professor Steven Schwartz ('the Schwartz Review'), published in September 2004. The Schwartz Review is available online at: <https://dera.ioe.ac.uk/5284/1/finalreport.pdf>

Our admissions policy complies with chapter B2 of the QAA UK Quality Code for Higher Education on recruitment, selection and admission to higher education. The Quality Code is available online at: <http://www.qaa.ac.uk/quality-code/the-existing-uk-quality-code/part-b-assuring-and-enhancing-academic-quality>

The University of Liverpool has signed up to the Universities UK Fair Admissions Code of Practice. The code of practice sets out the principles and behaviours that universities and colleges should deliver for applicants. These include:

- protects applicants' interests
- supports fairness and transparency
- ensures the stability of the higher education sector
- maintains high academic standards.

Further details are available on the Universities UK [website](#).

We welcome applications from disabled students and those with specific learning difficulties such as dyslexia, and their applications will be considered on the same academic grounds as those of other students. We will contact applicants who indicate a disability on their UCAS application form and subsequently accept an offer of a place to study at the University. We will invite them to discuss their support needs with a member of the Disability Advice and Guidance Team so that any necessary support can be arranged.

Further information on the Disability Advice and Guidance Team may be found at:  
[Disability Advice and Guidance - Student Services - University of Liverpool](#)

## 4 Roles and Responsibilities

Responsibility for University policy in relation to admissions at undergraduate level lies with the University's Student Intake Strategy Group (SISG). The Student Intake Strategy Group reports to the University's Senior Leadership Team.

The group will take account of market positioning and intelligence, and the University's planning and budgetary context, and fulfil the following functions.

The **Student Intake Strategy Group** Terms of Reference are:  
To approve, monitor and review University of Liverpool strategy, policy and procedure in respect of all aspects of the marketing, recruitment, and admission of undergraduate and postgraduate-taught students.  
To ensure that approved intake targets are met and that recruitment risks are managed effectively  
To deliver this Student Intake Strategy group will fulfil the following functions:

### **Strategy**

#### **Student Recruitment**

To take a forward-looking view in developing and agreeing student recruitment strategy on all aspects of Home, International, Undergraduate and Postgraduate recruitment.

To consider market position and approach to achieve strategic recruitment objectives.

To oversee the process and, where appropriate, make recommendations on target setting, informed by the analysis of data on applications and prior recruitment performance, both in terms of quantity and quality of students.

To endorse student number plans as developed by Faculties as part of the PPC.

To oversee all student number plans for partnerships, including UoLIC, XJTLU and Carmel College.

To contribute to the University's strategic objectives for TNE and determine operational parameters such as entry thresholds, academic quality assurance, viability, and other aspects. Where required, advise Due Diligence Panel on the approval of new TNE partnerships. SISG would engage in ongoing monitoring and evaluation of TNE partnerships.

To facilitate and promote the alignment of the services supporting Student Recruitment to enable delivery of the University's strategic aims and objectives for Student Recruitment.

#### **Portfolio Development**

To oversee the ongoing development of a portfolio that is responsive to market demand and supports the wider student recruitment strategy.

#### **Risk Management**

To oversee strategic risk indicators; advise on institutional risk management strategies and to consider effectiveness of mitigation measures for strategic risks relevant to student recruitment.

### **Policy**

To have delegated authority to approve minor amendments to existing policies/codes of practice relating to the recruitment and admission of students.

Where required, to advise the Fees Group, Planning Group and Senior Leadership Team on appropriate levels of tuition fees to be charged for new and existing programmes of study offered by the University. The fee setting process will be the responsibility of Fees Group.

To oversee and set direction for institutional admissions entry requirements and approve any divergence from institutional direction.

To review the admissions policy and principles of admission on an annual basis to ensure that they are effectively aligned to the delivery of the University's strategic ambitions around student recruitment.

To oversee University policy in relation to overseas recruitment agents and offices, including the consideration and approval of proposals for new overseas agent agreements, and the renewal of any existing contracts.

### **Operations**

To maintain a strategic oversight of student recruitment activity, including confirmation and clearing plans.

To require an annual review from the most recent admissions exercise to include a review of the recruitment cycle and review lessons learned on areas such as target setting; modelling and modelling assumptions; timing of offers; and conversion activities.

To define and review the portfolio review process, identifying programmes that are not meeting expected performance from a recruitment perspective, including monitoring new programmes, and overseeing the actions put in place, including programme closure.

To oversee the market analysis of new programme proposals, through the programme approval process so they are advertised effectively in the prospectus.

To receive updates from relevant subgroups

The **Student Recruitment, Admissions and Widening Participation (SRAWP) Department** is responsible for:

- Promoting awareness of the programmes of study at the University of Liverpool to prospective students
- Providing advice on the suitability of different qualifications for entry to our programmes
- Providing pre-entry advice and guidance to prospective students, their parents, schools and colleges
- Management of the University's undergraduate admissions procedures
- Liaising with UCAS and other similar bodies and with admissions staff throughout the University
- Monitoring applications and associated trends
- Organising the University's confirmation and clearing activities
- Advising prospective students on admissions matters
- Issuing of documentation for visa purposes
- Widening Participation (WP) outreach activities including managing the Scholars programme.

Members of staff in the central **Admissions Team** within the SRAWP make decisions on individual applications for most non-clinical programmes, applying criteria established by the **Deans of School, Faculty Academic Admissions and WP Leads** and **Academic Admissions Tutors**. The central Admissions Team will aim to make decisions on applications received via UCAS, where all the information necessary to make a decision is available within 10-15 working days. However, depending on the complexity of an applicant's circumstances, and the time of year, some decisions may take longer than this.

The **International Recruitment and Relations** within SRAWP also provides advice to international students on the non-UK qualifications which may be acceptable for entry. Further information is available on our website at [www.liverpool.ac.uk/international/](http://www.liverpool.ac.uk/international/)

The **Dean of School/Department** is responsible for the integrity of the admissions process in their School. They appoint admissions staff and take responsibility for ensuring that they understand and support the principles of fair admissions set out in this document. The Dean of School is also responsible for recommending the academic requirements appropriate for entry to their School, for approval via the **Student Intake Strategy Group (SISG)**.

**Admissions Tutors** make decisions on individual applications and are responsible, in consultation with the Dean of School/Department, for devising the entry criteria for their programmes. This is then presented and approved by the University's Qualifications Group and Student Intake Strategy Group. The Admissions tutor is responsible for ensuring that the School's/Department's selection procedures are consistently applied. They also provide advice and guidance to potential applicants. For Campus-based programmes Admissions Tutors report to their Dean of School/Department and are expected to work closely with relevant staff in the central Admissions Team. The Admissions Tutor takes responsibility for monitoring the progress of recruitment and admissions activities in order to achieve the target admissions intake numbers to the programmes for which they are responsible.

We ask that applicants keep the Admissions team updated with any changes to their circumstances or qualifications. Applicants will be communicated with via UCAS for any application decisions and we ask that applicants monitor UCAS track throughout the cycle. The University will also communicate directly with applicants throughout the admissions cycle.

Applicants are required to present proof of any qualification achieved that has not been verified through UCAS. Applicants not able to do this may risk their offer being withdrawn.

Applicants who do not engage with registration by the latest start date will be released into Clearing.

## 5 Academic Requirements and Selection Principles

We update our entry requirements in our Undergraduate Prospectus on an annual basis in the light of changing academic requirements. Although we try not to change our entry requirements after the prospectus has been printed, occasionally late changes are made. This means that sometimes our requirements do not reflect the information published in the hard copy of our Undergraduate Prospectus. We therefore recommend that applicants look at the information in the course listings in our online Undergraduate Prospectus at [Courses - University of Liverpool](http://Courses - University of Liverpool) as the source of the most up-to-date information. For the majority of our programmes, our academic entry requirements are also published on the UCAS website at [www.ucas.com](http://www.ucas.com)

In principle, we consider any qualification at a suitable academic level (Level 3 or above in the Regulated Qualifications Framework for England, Wales and Northern Ireland, or its equivalent in the Scottish

Credit and Qualifications Framework). This also includes pre-Curriculum 2000 qualifications and a wide range of European and other international qualifications. More information on specific qualifications may be found on our website at: [Entry requirements and qualifications - University of Liverpool](#).

We seek to admit students who are able to benefit from the opportunities available at Liverpool. Applications will be assessed primarily on the basis of prior and predicted academic achievement. It is therefore important that applicants complete the application form fully without any omissions, and this should also include details of any time spent at another Higher Education Institution. Assessment for admission to particular programmes may also draw on a variety of methods of assessment over and above the information on the application, including interviews and the use of portfolio evidence. These include but are not exclusive to programmes allied to Medicine, Dentistry, Veterinary Sciences, Pharmacy, Allied Health Professionals and Nursing, Architecture, and Music.

We require all applicants for undergraduate programmes to demonstrate a good general education, which includes acceptable levels of literacy and numeracy, normally equivalent to at least Grade C at GCSE in English and Mathematics, or Grade 4 in the numerical grading scale. Individual programmes may have additional requirements, and these are outlined in each programme entry in the [online prospectus](#). For international applicants, we accept a range of qualifications that meet our [requirements](#).

Students whose first language is not English will need to provide evidence that they hold an acceptable English language qualification. For more information, see [English Language entry requirements - University of Liverpool](#).

## 5.1 Extenuating Circumstances

We believe in treating applicants as individuals, and in making offers which are appropriate to their personal circumstances and background. For this reason, admissions staff may take into account a range of factors, both academic and non-academic, in assessing applicants' merit and potential, and have discretion to make offers that differ from those indicated as 'typical' in our prospectus. As a result, it is possible that applicants for the same programme may receive different types or levels of offer, depending on their individual circumstances.

Non-academic factors which may be taken into consideration include, but are not limited to, illness, bereavement, family or educational circumstances which have adversely affected an applicant's performance. However, we would need to receive evidence of these extenuating circumstances and their impact on the applicant's educational achievement from an appropriate individual (school head, medical practitioner, etc) as appropriate.

While extenuating circumstances are dealt with on an individual basis it may be impossible to know the extent to which any specific set of circumstances has impacted on an applicant's performance. Hence it may be impossible to give priority in the admissions process to applicants who advise us of extenuating circumstances, even where these are considered to be valid.

All extenuating circumstances information for non-clinical programmes should be provided to the Admissions team by **31<sup>st</sup> July** of the cycle for which the application has been submitted.

## 5.2 Applicants offering a reduced number of Level 3 qualifications

Applicants who present with a reduced number of level 3 qualifications, for example two A levels rather than the more typical 3 A levels and this is due to extenuating circumstances but are achieving a high standard will be considered by the University for undergraduate study. A panel will be convened once all the applicant's information has been received by the Admissions team. The panel may include Associate Director, Admissions, Enquiries and Fulfilment (or their representative), Admissions Lead for the appropriate Faculty (or their representative), Admissions tutor for the Department or School (or

their representative) and any other relevant staff such as a member of the Widening Participation team, Disability Advice and Guidance team, etc.

The applicant's qualifications or predicted academic outcome and circumstances will be discussed. The applicant will then receive an outcome of their application.

### 5.3 Interviews

Some academic Schools use interviews or additional assessments such as maths tests to assess applications. Where this is the case, they may interview all candidates whose applications meet their academic criteria, or they may interview only a proportion of candidates, for example where the application does not provide enough information to make a decision, where applicants are presenting non-standard qualifications, or where the applicant is a mature candidate.

### 5.4 Deferred entry

The University is happy to consider requests to defer entry for one year. Applicants may either indicate on their application that they wish to defer entry for a year, or they can contact Admissions using the online request form during the application cycle, but no later than **15th July** of the admissions cycle in which they are applying.

Deferral requests will be considered on a case by case basis. Spaces may be limited for deferrals due to student experience, space constraints, and health and safety factors.

Applicants seeking to defer their entry should be aware that any offer conditions must be **met by the end of the application cycle** for the year in which they submitted their application. Applications which indicate at the outset that they are for deferred entry will be considered against the entry criteria for the year in which they apply. Unless there are exceptional circumstances, we do not normally permit applicants who apply to us through the Clearing process to defer their entry.

The deadline for deferral requests made by accepted applicants after A level results day is **25<sup>th</sup>**

**September** and these will be considered on a case-by-case basis, but deferral is not guaranteed.

Some programmes require work experience as part of their admissions criteria. Where this is the case, applicants are advised to contact either the Admissions Team or the Admissions Tutor for the programme concerned for advice about how to make the most of their gap year.

We do not normally permit applicants to defer entry for more than one year. Applicants who wish to defer for more than one year are usually expected to make a fresh application through UCAS. Where an applicant may wish to defer more than once, this would be reviewed on a case-by-case basis.

### 5.5 Alternative Offers

Where an applicant is not suitable for their programme of choice, we will review the application for suitability for other similar programmes or associated foundation programmes and make an alternative offer, where possible.

### 5.6 Re-sits

We accept applications from students who are re-taking their examinations. However, applicants should note that any offer they may receive may require them to obtain higher grades than those quoted as 'typical' requirements in the prospectus and that some high-demand courses may place restrictions on such applications. Re-sits will only be considered for the same year of entry if they are taken in a timely manner such that the applicant is able to commence the programme on the start of term date. For details on acceptability of re-sit grades for clinical programme please review the Departmental specific admissions supplement listed in section 2 of this policy.

## 5.7 Re-applications

Applicants who have applied to the University and have been unsuccessful in a previous admissions cycle may reapply and should include in their application additional evidence of potential which has been obtained in the intervening period. Applicants are reminded that the reference submitted with the application to UCAS or where appropriate to the University directly, should normally be written by a member of staff of the educational institution most recently attended by the applicant. For details on acceptability of re-applications for clinical programme please review the Departmental specific admissions supplement listed in section 2 of this policy.

## 5.8 Direct Entry to Year 2

Applications may be considered from applicants who are seeking direct entry to Year 2. However, admissions staff will need to be satisfied that the applicant has covered all the core material contained in the syllabus for Year 1. It is therefore important that applicants who wish to be considered for Year 2 entry send us copies of transcripts of their previous studies and any other supporting information. In addition, we will normally require applicants for Year 2 entry to have also achieved our typical Year 1 entry criteria from their previous level 3 qualifications, and they may be required to attend an interview or submit a piece of work as part of the selection process. Programmes will require a minimum of a 60% pass rate in previous HE studies.

### [Transferring for Students and Applicants - University of Liverpool](#)

Not all programmes are able to accept entrants into Year 2, and you should check with the relevant academic School before making an application. It is not normally possible to enter directly into Year 3 of any of our programmes.

We cannot consider applicants for year two entry during Clearing.

## 5.9 Agency Applications

Some of our international students may choose to apply via one of our approved representatives overseas, sometimes referred to as Agents. These representatives have been appointed by the University of Liverpool to represent us in various countries where there are significant numbers of students who wish to study in Liverpool. They will explain the programmes we have on offer and will be able to advise on whether your academic background is suitable for the programme you are considering. They will also be able to help you to complete the application form and will act as a correspondence address for you. You should be aware that agents may charge you for the services that they provide. As part of its relationship with educational agents the University of Liverpool has signed the UK Agent Quality Framework and requires all of its approved agents to follow The National Code of Ethical Practice relating to the services agents provide.

The University of Liverpool will give applications received directly and via its agents the same academic consideration, so it is entirely up to you whether you decide to use the services of one of our agents or not. A list of the representatives working for us may be obtained from:

[Your country/region - University of Liverpool](#) If you click on the link to your home country, you will be able to see a list of the representatives we have working for us in that country. International students are encouraged to refer to the 'Student Guide to Choosing an Education Agent' created by the UK Agent Quality Framework to assist them when selecting an agent to work with.

Further information about the way in which Liverpool selects and manages the relationship with its agents may be found at: [Applying through an agent - International students - University of Liverpool](#)

## 5.10 Clearing

Applicants can apply via Clearing after the beginning of July. We do not normally make deferred offers through Clearing. We may accept applications from students who will be under 18 at the start of the first semester through Clearing. However, there are certain programmes where this is not possible these include:

Code	Course
B160	Physiotherapy
B520	Orthoptics
B700	Nursing
B821	Diagnostic Radiography
B822	Therapeutic Radiography & Oncology
B920	Occupational Therapy
B110	Anatomy
B113	Anatomy and Human Biology
C800	Psychology
B230	Pharmacy

We are unlikely to recruit through Clearing for programmes in Medicine, Dentistry and Veterinary Science.

Offers may be withdrawn if applicants do not provide the required documents by 31<sup>st</sup> August.

If you submit an application that is incomplete, the University will use its discretion in deciding whether to consider your application. If there is sufficient information available, we may make a conditional offer, based upon you providing additional evidence of your qualifications. However, the University reserves the right not to consider incomplete applications.

Applicants must meet the terms of the offer to be accepted onto their programme of choice through Clearing. It is the applicant's responsibility to ensure that the information submitted on the online application form is correct.

## 5.11 Plagiarism

As part of the application process, UCAS checks all personal statements for potential plagiarism (the copying of material without appropriate acknowledgement). Where evidence of plagiarism is found, UCAS will notify both the applicant concerned and the University of Liverpool. The University reserves the right to record an unsuccessful decision for any application (directly submitted or via UCAS) on the basis of plagiarism in the personal statement.

The University recognises that Artificial Intelligence (AI) and other tools are helpful in supporting the application process, but the personal statement for the application must be an individual's own work.

Full details of our procedures for handling plagiarism may be found on our website at:

[plagiarism,policy.pdf](#)

Note that in some subject areas, including Medicine, applications that are found to have plagiarised application documents will be rejected.

### 5.12 Previous HE Study

Applicants who have spent time at the University of Liverpool or another Higher Education provider should indicate this on the application form, even if they spent only a few weeks on the programme or elsewhere. The University will normally expect the reference on the application to be provided by the institution where the applicant studied most recently. More details can be found on our website at: [Previous, study, in, Higher, Education, Policy. pdf](#)

### 5.13 Health Declaration

Applicants for certain programmes in clinical subject areas should be aware that they may be required to undergo an occupational health check and be tested for and/or immunised against a range of infectious diseases prior to patient contact. Some programmes including Dentistry will not confirm places until the Occupational Health process has been completed.

### 5.14 Feedback

The University will provide feedback on its decisions on request, within the constraints of the resources available. However, applicants should note that in some highly competitive subject areas, it may be possible to provide feedback only at the end of the admissions cycle. It may only be possible to provide feedback of a very general nature, owing to the fact that selection for programmes is competitive and the decision may be made on the basis of the applicant's performance relative to the applicant group as a whole.

### 5.15 Applicant conduct

The University of Liverpool is committed to ensuring that any interaction with an applicant or their representative, is conducted in a professional manner and it expects that any communication from an applicant or their representative is conducted in the same way.

Applicants and their representatives should note that the University will not tolerate inappropriate behaviour or language towards its employees during the admissions process. Hostile, or otherwise inappropriate behaviour or language, whether expressed verbally or in writing, including excessive levels of contact, will be viewed seriously and may adversely affect the consideration of an application, appeal or complaint. The University will normally alert an applicant or their representative that his or her behaviour or language is inappropriate, and that action is being considered, but where the behaviour or language is particularly inappropriate no warning need be given before action is taken. Such action may include the withdrawal of an offer or the rejection of an application and also the team will discontinue correspondence with the applicant or their representative.

### 5.16 Allegations made by a third party

If an allegation is made against an applicant relating to conduct prior to registering at the University which may impact the applicant, cohort or University once the applicant arrives, the University may choose to investigate this. Investigations may require Admissions or their representative to contact an applicant to discuss allegations that have been made against them. Where allegations are proven and would impact the University or cohort an offer or application may be withdrawn.

## 5.17 Applicants aged under 18 at the start of their Course

The University does not operate a minimum or maximum age requirement for its programmes, but applicants must be able to demonstrate the relevant qualifications, academic potential, maturity and personal skills to succeed on our programmes.

The University occasionally receives applications from students who would not have attained the age of 18 when they expect to begin their studies. The University has clear procedures in place to ensure the safety and wellbeing of any students who are admitted under the age of 18 and further detail may be found at:

[Under 18s July.docx \(liverpool.ac.uk\)](#)

Applicants for the single Honours Psychology programme, UCAS Course Code C800, need to be aware that students have to take part in a specified number of experiments over the academic year. Students who are aged under 18 are not able to take part in these experiments and are therefore excluded from this activity. However, as long as they have reached the age of 18 by 1st December of the year they start their course, they will be able to take part in a sufficient number of experiments in Semester 2 to meet the requirements of the programme. Applicants who will not have attained the age of 18 by 31 December will either be made a deferred offer for the following year or will be advised to withdraw their application and re-apply the following year.

Applicants should be aware that some programmes that require a Disclosure and Barring Service check may have a minimum age requirement. Applicants for programmes such as Medicine, Dentistry, Veterinary Science or the allied health professions such as Physiotherapy, Nursing, etc, should seek advice from the academic department before they apply.

The following programmes are not available to Under 18 applicants due to the nature of the programme:

- B110 Anatomy and Human Biology (BSc)
- B113 Anatomy and Human Biology (MBiol)
- B230 Pharmacy (MPharm)

## 6 Fair Access

### 6.1 Use of Contextual Data

The University receives information from UCAS, derived from the details entered by applicants on their application form, about the school or socio-economic context in which an applicant has previously studied. This information, together with declarations about applicants' disability or care experienced status, is referred to as contextual data. These data help the University to understand more fully the academic potential that applicants have that may not be fully demonstrated by their prior academic achievements.

In addition to the above the University and UCAS will also be collecting information on disrupted studies, this includes the following:

- Young Adult Carer
- Spent time in Local Authority Care
- Military Family
- Estranged from Family
- Forced Migrants
- Asylum Seekers
- Refugees
- From Gypsy, Roma and Traveller communities

## Young Parent

Have faced medical issues during their time at school/college.

The University uses contextual data including disrupted studies information to identify applicants whose educational performance may have been affected by educational, socio-economic or other disadvantage.

More information on the University's use of contextual data may be found on our website at:

[Contextual Data - University of Liverpool](#).

### 6.1.1 Contextual Admissions

The University operates a contextual admissions strategy that provides applicants with up to a two-grade reduction (grade reduction will vary by qualification type) from the standard offer for the following under-represented groups:

- Students from English neighbourhoods with historically low participation in Higher Education (known as POLAR 4 Quintile 1 postcodes, after the dataset used by the Office for Students to track this metric)
- UK students from socio-economically deprived home postcode areas as defined in Index of Multiple Deprivation (IMD) deciles 1 and 2.
- UK Care Experienced students (i.e. qualifying students who have spent any amount of time in Local Authority care and meet associated eligibility criteria used nationally).

We recognise that there could be circumstances where UK applicants may not have a POLAR 4 value associated with their postcode. We will consider such applications on a case-by-case basis for a one grade reduction and will apply other geographic indicators such as TUNDRA if available or where there is no geographic data we will consider individual data such as free school meals or extenuating circumstances.

Further details are available on our website: [Contextual Admissions - University of Liverpool](#).

## 6.2 Mature Students

We encourage applications from people who are not applying directly from a school or college, or who have non-standard qualifications, and who wish work or life experience to be considered as part of their application. We will consider a wide range of qualifications and relevant work or life experience as evidence of academic suitability. We consider each application on its own merits, but it is not always necessary for such applicants to meet the standard entry requirements, although evidence of recent formal study (normally defined as having been undertaken within the past five years) is usually required.

Students may obtain more advice about studying at the University as a mature student from our website: [Mature students and access courses - University of Liverpool](#).

## 6.3 Widening Participation and Outreach

The University of Liverpool has a strong commitment to providing opportunities for talented students from all backgrounds. Our widening participation policies, and the work of the Widening Participation and Outreach Team, are grounded in our ethos of equity and social inclusion.

The Widening Participation and Outreach Team is involved in a variety of projects and initiatives which aim to redress inequality by providing targeted support to under-represented groups. They work with young people in primary schools, secondary schools and colleges as well as adults returning to education.

Further information on the University's activities in this area may be found at:

[Widening Participation - University of Liverpool](#)

The University produces an Access Participation Plan (APP), which represents the University's overarching widening participation strategy. A copy of the [University's Access Participation Plan](#) may be found on the [website](#) and is submitted to the Office for Students (OfS).

#### 6.4 Applicants with a Disability

We welcome applications from disabled students and those with specific learning difficulties such as dyslexia, and their applications will be considered on the same academic grounds as those of other students. We will contact applicants who indicate a disability on their UCAS application and subsequently accept an offer of a place to study at the University. We will invite them to discuss their support needs with a member of the Disability Advice and Guidance Team so that any necessary support can be arranged.

Further information on the Disability Advice and Guidance Team may be found at:

[Disability Advice and Guidance - Student Services - University of Liverpool](#)

#### 6.5 Applicants who have been in Local Authority Care

We welcome applications from students who have had experience of being in local authority care and have a member of staff with specific responsibility to support applicants who are care-experienced. We will contact offer holders who indicate on their application form that they have been in care to let them know of the support we are able to offer. More details about our arrangements for care leavers may be found at: [Care Leavers - Student Services - University of Liverpool](#)

#### 6.6 The Liverpool Scholars Programme

The University of Liverpool is committed to supporting talented students who wish to access Higher Education, regardless of their background. The Liverpool Scholars programme offers year 12 students the chance to take part in a range of activities aimed at preparing them for university life and supporting their entry into higher education. Activities ranging from application guidance workshops to academic skills master classes, lectures and more are delivered in partnership with academics, undergraduates and the wider University. The programme supports students to develop academic key skills while experiencing University life. In doing so, we aim to nurture well informed, confident applicants.

More information on the Liverpool Scholars Scheme may be found on the University website at:

[Scholars - Widening Participation - University of Liverpool](#)

### 7 Preparatory Programmes and Progression Agreements

We recognise that some applicants will be offering qualifications which do not permit entry directly to the first year of an undergraduate programme and we have several programmes to enable such students to progress to the University.

## 7.1 University of Liverpool International College

University of Liverpool International College (UoLIC), which is run by Kaplan International in close collaboration with the University, offers programmes designed to prepare international students for entry to undergraduate degree programmes across a wide range of subjects.

After completing their studies at University of Liverpool International College, students will be eligible to enter undergraduate degree programmes provided by the University of Liverpool, subject to meeting the required academic and English language standards for progression and subject to satisfactory performance at interview where appropriate. More information may be found at: [University of Liverpool International College | Kaplan Pathways](#)

## 7.2 Go Higher

The University offers the 'Go Higher' programme as a route into Higher Education for mature students who do not have formal entry qualifications. Applicants who wish to apply for the Go Higher programme can apply directly to the University and do not need to apply through UCAS.

Further details of the Go Higher programme may be found at: [Go Higher Access Programme Go Higher Access Programme- Faculty of Humanities & Social Sciences - University of Liverpool](#)

## 7.3 Programmes run in conjunction with Partner Institutions

### 7.3.1 Carmel College

The University offers a number of degree programmes in Life Sciences and Science and Engineering in conjunction with Carmel College in St Helens. Students take a foundation year at Carmel College and, provided they meet the progression criteria, then proceed into year one of a degree programme at Liverpool. Information about the degrees offered in conjunction with Carmel College may be found in our online Undergraduate Prospectus at: [Courses - University of Liverpool](#)

### 7.3.2 Wirral Metropolitan College

The University offers a '2 + 2' programme in Psychology in conjunction with Wirral Metropolitan College. The programme is aimed at adult learners from a variety of vocational, academic and non-academic backgrounds. Successful completion of the first two years at Wirral Metropolitan College allows students to transfer to the second year of the Psychology degree programme at Liverpool.

### 7.3.3 Health and Veterinary Studies

The University offers a foundation programme for Home students at Carmel College that leads to access onto a variety of vocational Health and Veterinary Science programmes. Successful completion to the specified standard allows students to progress onto degree programmes at the University in Dentistry, Diagnostic Radiography, Medicine, Nursing, Occupational Therapy, Orthoptics, Pharmacy, Physiotherapy, Radiotherapy or Veterinary Science. The programme is targeted at Home mature and non-traditional students who typically have taken a break from studies. More information about this programme may be found on our website at: [Foundation to Health and Veterinary Studies \(Year 0\) - Undergraduate Courses - University of Liverpool](#)

## 8 Articulation Arrangements

## 8.1 XJTLU

The University is a co-founder, with Xi'an Jiaotong University in China, of Xi'an Jiaotong Liverpool University (XJTLU), an international university located in Suzhou, China. Undergraduate students registered on programmes at XJTLU have the opportunity to articulate into Year 2 of specified degree programmes at the University of Liverpool and to graduate with degrees from both Liverpool and Xi'an Jiaotong Liverpool University.

Students at XJTLU articulating into programmes at Liverpool apply directly to the University of Liverpool and will be advised on the application process by the team, based at XJTLU.

## 8.2 International Medical University, Malaysia

The University of Liverpool works in partnership with the International Medical University (IMU), Malaysia, which allows students from IMU to articulate into Year 3 of the five-year MBChB degree programme at Liverpool. Further information about the programme for students at IMU may be found at: <http://www.imu.edu.my/imu/index.php/education/undergraduate/medicine>

## 8.3 Other Articulation Arrangements

The University has articulation agreements with several overseas universities. These arrangements allow students registered on specific programmes, who meet the defined progression criteria, to articulate into Year 2 or Year 3 of a programme at Liverpool and subsequently graduate with a University of Liverpool degree. The arrangements currently in place are:

- HELP University
- Advanced Tertiary College (ATC)
- Brickfields Asia College
- Taylor's University

More information about applying to the University of Liverpool via this route may be found at: [Direct Entry: Transferring to Liverpool - Liverpool Law School - University of Liverpool](#)

# 9 Discontinued Programmes/Major Modifications to Programmes

While the University makes every effort to be able to provide the programmes that it has advertised in its prospectus and other promotional material, there are sometimes occasions when, for reasons beyond our control, we are unable to offer a programme in any given academic year.

Where this is the case, and we have students who have applied for places on the programme, or who have deferred their entry for the programme from a previous year, we will do everything we can either to offer them a place on an alternative programme at Liverpool or to help them find a similar programme at another University.

In some cases, the University may continue to offer a programme, but its content may be significantly different from the description of the programme in the Prospectus. Where this is the case, we will contact applicants to let them know that significant changes have occurred and will again do everything we can to offer a place on an alternative programme if the modifications mean that the original programme no longer meets their needs.

## 10 Student Visas

The UK government operates a points-based immigration system for all overseas students. Further details are at <https://www.gov.uk/government/organisations/uk-visas-and-immigration>

The University is licensed with the Home Office as a Student visa Sponsor. The University aims to provide a Confirmation of Acceptance for Studies (CAS) in good time for the visa application but in doing so relies on the applicant taking responsibility for:

- making a timely application for admission including complete details of all previous study and periods of study in the UK
- responding fully and in good time to accept the offer
- responding fully to requests for any further information, such as passport details
- providing the University with an appropriate email address to which the CAS will be issued.

To comply with the relevant United Kingdom legislation and immigration regulations, the University will notify the immigration authorities, where relevant, of any non-arrival, or late arrival, of an applicant and of any subsequent changes to a student's registration status. The University reserves the right to refuse admission should an applicant be found not to be in a position to meet all UK visa requirements for the anticipated full duration of his/her programme of study.

All applicants requiring a visa to study in the United Kingdom must not currently be, or have ever previously been, in the United Kingdom for any purpose without valid immigration permissions. If, either during the process of admitting a student or subsequent to that student enrolling upon their programme of study, the University is informed that the applicant/student is (or has previously been) in the United Kingdom without such valid permissions, it may be required to inform the immigration authorities and/or withdraw the offer of a place and/or withdraw its sponsorship of the individual's visa.

The University may need to review this policy in light of changes to Home Office student visa policy in order to remain compliant with Sponsor duties. This may result in changes to matters such as the evidence required for English language proficiency at short notice. Where changes are necessary due to Home Office regulations the University will endeavour to contact all applicants holding an offer and who the change will impact, within 6-8 weeks.

The University will generate Confirmation of Acceptance for Studies (CAS) when applicants are firmly holding an unconditional offer of a place, and the University has received documentary evidence of the qualifications they hold.

**Applicants should be aware that they will be required to produce original copies of their certificates when they arrive to register at the University.**

Applicants must check their offer. For international applicants, any information that is provided to the University as part of an application will subsequently be used by the University to apply for a CAS. Any errors in an application may result in a CAS/Visa not being granted, which could result in an offer being amended or withdrawn.

The University undertakes to do all it can to ensure that applicants have the appropriate documentation to apply for their visas in good time. More information may be found on the UK Visas and Immigration website at: <https://www.gov.uk/government/organisations/uk-visas-and-immigration>

***Important: if you use a CAS issued by the University of Liverpool to obtain your visa, you are committed to taking up your place at Liverpool. You cannot use a CAS issued by Liverpool and then change your mind about where you want to study.***

CAS will not be issued after 31<sup>st</sup> August for entry for that academic cycle. The exceptions to this are:

- Pre-sessional students at the University's English Language Centre
- UoLIC resit results
- International Clearing, where applicable
- Brickfields
- Second CAS for visa refusals
- If an applicant is already in the UK and will be applying in-country

## 10.1 Passport and visa documentation

As part of the University's immigration sponsorship duties, all new international students are required to produce their original passport and original Biometric Residence Permit upon registering for their programme. This documentation will be verified, scanned and retained in your student file. Documentation which cannot be verified (due for example to incorrect sponsor details on your visa) may result in you being refused permission to continue on your programme. The University needs to see the full Biometric Residence Permit; the short-term study visa stuck into the passport is not acceptable for registration purposes.

International students must complete all stages of the registration process, including having their original documentation checked, before they can be issued with their student ID card and handbook. The University is also required by law to inform UK Visas and Immigration if students fail to fully register as described.

For further information please see the following link:

[Admissions for International Applicants - University of Liverpool](#)

## 10.2 Visa refusals and requests for a second CAS

If your visa application is unsuccessful and you need a second CAS in order to submit a new visa application, you must alert the Admissions Team immediately via email to [ugosi@liverpool.ac.uk](mailto:ugosi@liverpool.ac.uk). The University is responsible for reporting activity on CAS used for a visa application, including where a visa has been refused. You should provide your complete visa refusal note plus any additional documents which may change the outcome of the visa decision.

All requests for a second CAS are to be approved by the University's International Advice and Guidance Team. A second CAS will not be issued until they approve one.

We advise applicants that they should not book a second visa application until they have received their second CAS. The University will not be liable for any costs incurred if you book a visa appointment without having received a CAS.

The University will issue only one additional CAS where a visa application has been refused.

## 11 Academic Technology Approval Scheme (ATAS)

International students who are applying for places on certain undergraduate programmes may need to apply for an Academic Technology Approval Scheme (ATAS) certificate before they apply for their visa and begin their studies. The ATAS scheme has been set up by the Foreign and Commonwealth Office as a means of avoiding the proliferation of potentially dangerous technologies.

Applicants may check whether their course will require an ATAS certificate at:  
<http://www.fco.gov.uk/en/about-us/what-we-do/services-we-deliver/atas/>

Applicants who are applying for courses which are covered by the ATAS scheme must obtain an ATAS Certificate before they apply for a visa. Failure to do so will result in the visa application being refused. It is the responsibility of the applicant to ensure that they have an ATAS Certificate before they apply for their visa.

To find out more about ATAS at the University of Liverpool please see:  
[ATAS - University of Liverpool](#)

## 12 Applicants who disclose an unspent Criminal Conviction

As part of its duty of care to members of the University community, it is our policy to ask certain cohorts of applicants who we believe are more 'at risk' whether they have any relevant criminal convictions at the time when they apply to us (all clinical, Wirral Metropolitan College and Carmel College applicants), or when they apply for University accommodation (all applicants who apply) and to ask for further details of any convictions which are disclosed.

We encourage **all** applicants to disclose if they have an unspent (An unspent conviction is a criminal conviction that has not yet been erased from your record) criminal conviction, are involved in police investigations or criminal proceedings.

If an applicant discloses a relevant unspent conviction, procedures vary slightly depending on the programme of study. Normally, for non-clinical subject areas, when we have received details of the conviction and its consequences in terms of any sentence served or caution received, an Admissions Risk Assessment Panel will undertake a risk assessment to determine whether there is a risk of harm to others before deciding whether an application may proceed. The application process will be suspended while information is gathered about the conviction. The Admissions Risk Assessment Panel will usually consist of the Assistant Director of Legal Services (or their nominee), the Associate Director, Admissions, Enquiries and Fulfilment from Student Recruitment, Admissions and Widening Participation (SRAWP) (or their nominee), Head of Student Conduct, Complaints and Compliance (or their nominee) and the Dean of the academic School within which the applicant wishes to study, (or their nominee).

Full details of the procedure for handling applications from individuals who declare a criminal conviction may be found at: [criminal-convictions-policy.pdf \(liverpool.ac.uk\)](#)

If the process cannot be concluded by the start of the programme the applicant may need to be considered for the next intake.

For certain clinical courses there are separate requirements for applicants to be subject to a Disclosure and Barring Service (DBS) check, in order to determine fitness to train and practise. Further details may be found on the relevant academic Schools' websites.

Clinical subject areas have separate procedures including requirements for applicants to be subject to a Disclosure and Barring Service (DBS) check, in order to determine fitness to train and practise. Further details of this procedure may be found on the websites of the relevant academic Schools, (i.e. Medicine, Dentistry, Professions Allied to Medicine, Veterinary Science).

## 13 Fraudulent and Misleading Applications

The University follows the UCAS rules and procedures concerning fraudulent applications and liaises closely with the UCAS Verification Unit to prevent fraud. We will refer to UCAS any application that we suspect to be fraudulent or to contain fraudulent information.

We reserve the right to cancel an application or withdraw any offer made on the basis of an application which either UCAS or we have found to be fraudulent. Any student found to have been admitted on the basis of fraudulent information may have their studies terminated. International students who have been admitted on the basis of fraudulent information may have their studies terminated and also be reported to the relevant government agency.

For more information on UCAS procedures relating to the detection of fraudulent applications, please see the UCAS website at [www.ucas.com](http://www.ucas.com).

The University cannot accept an applicant who is in appeal or complaint process relating to previous study at another University. The university reserves the right to not accept an application where an applicant is undergoing misconduct or disciplinary procedures at another education provider.

## 14 Payment of Fees

Applicants who accept an offer are agreeing to pay all tuition fees (and other related costs and expenses) as and when they fall due in accordance with the University's payment terms.

Full details of the arrangements for payment of fees may be found in the University's Fee Payment Policy, which is updated on an annual basis. The latest version of the Policy may be found at: [Paying Student Fees - Paying Student Fees - University of Liverpool](#)

As part of the application process, the University requires applicants to indicate whether they are eligible to pay Home or International levels of fees. The University uses the information provided by applicants to determine which category of fee they should pay. If we are unable to determine fees status from the information provided, we will ask applicants to provide further information. Whilst we await further information the applicant will be classified as international.

Fees are subject to increase each year.

Further information about fee status determination is available from the University website at [My fee status Fee status- Student Administration - University of Liverpool](#)

## 15 Data Protection and Competition Markets Authority (CMA)

By signing the application, applicants give permission to the University to process their personal data for the purposes of managing the University's selection and admissions procedures and for the University to use this data for maintaining its student records. This information is also used to make statutory returns to bodies such as the Office for Students (OfS). More information about the way in which we use your data may be found in our [Admissions Privacy Statement](#).

Data collected during the admissions and registration processes will be used for the purposes of maintaining student records, managing processes in relation to academic progress, providing personal and academic advice and support, managing accommodation services and providing access to the Library and sports facilities and the facilities in The University of Liverpool's Guild of Students.

The University complies with the Data Protection Act (1998) and with the General Data Protection Regulation with regard to handling applicant data.

## 15.1 Competition Markets Authority (CMA)

The CMA sets out your consumer rights as an applicant. There are three key consumer law issues for students/applicants:

Information provision – universities need to provide up-front, clear, unambiguous and timely information.

Terms and conditions – universities' terms and conditions that apply to students need to be fair.

Complaint handling process and practices – universities need to ensure their complaint handling processes and practices are accessible, clear and fair to students.

For further information on CMA:

<https://www.gov.uk/government/collections/higher-education-consumer-law-advice-for-providers-and-students>

## 16 Appeals and Complaints

Although the University strives to maintain the high standards that we set ourselves in dealing with admissions, we recognise that things do sometimes go wrong and that applicants may feel that they have grounds for a complaint or an appeal.

For the purposes of this policy, an **appeal** is defined as a request by an unsuccessful applicant for a formal review of the outcome of an admissions decision. Such appeals will normally be allowed only if there is evidence of a material irregularity in the decision-making process.

A **complaint** is defined as an expression of dissatisfaction with the way in which the University's admissions policies or procedures have been applied to reach an admissions decision.

Please note that a complaint or appeal which seeks to dispute the academic judgement of the selector will not be considered.

If an applicant chooses to make both a complaint and an appeal they should submit these as two separate documents. A complaint and an appeal will not be accepted on the same form.

Full information on the University's Complaints and Appeals procedure may be found at:

[Undergraduate admissions policy documents - University of Liverpool](#)

## 17 Terms and Conditions for Applicants

Applicants and their educational representatives should be aware that when they sign the application form, whether online or in hard copy, they acknowledge the content of this policy and are specifically agreeing to the following:

- that the information contained within the application is true and accurate to the best of their knowledge
- that the applicant is aware that if they have made an application via one of the University's educational representatives overseas, they are themselves responsible for any information that the representative provides to the University on their behalf
- that the University will process personal data contained in the application form, or other data which the University may obtain from the applicant or other sources. Applicants agree

to the processing of such data for any purpose connected with their studies or their welfare and safety, or for any other legitimate interest

- that, where appropriate in order to process an application for study, the University will share personal information with other relevant organisations, which may include Kaplan, XJTLU, partner institutions, UK Visas and Immigration, the applicant's educational representative, sponsors and referees
- that the University will keep application data for in line with the University's retention schedule if the application is unsuccessful
- that if the application is successful the University will at that point be able to provide further notification of how the data that have been provided will be used and stored if requested
- that applicants have the right to access, rectify, erase, restrict or object to processing of their data. If you are not happy with the way your data has been processed in the first instance you should contact the University of Liverpool Data Protection Officer, at [legal@liverpool.ac.uk](mailto:legal@liverpool.ac.uk)
- If you remain dissatisfied, you may complain to the Information Commissioner's Office at the following postal address or via <https://ico.org.uk/>:

Information Commissioner's Office

Wycliffe House  
Water Lane  
Wilmslow  
Cheshire SK9  
5AF

- that the University will require any student who has previously studied at the University of Liverpool and who left with an unpaid debt to make arrangements for the repayment of that debt before they can be accepted onto an undergraduate programme.
- that if the University suspects that an applicant has provided false or misleading information, it will carry out an investigation to determine whether these suspicions are justified and reserves the right to record an unsuccessful decision or withdraw any offer that might already have been made. The University may also refuse to accept a subsequent application from students who have provided false or misleading information in the past.
- that occasionally, for reasons beyond its control the University may be unable to run a programme that has been advertised for any given academic year. Where this occurs and there are applicants who have applied and/or been made an offer for that programme, the university will make every effort to provide an alternative programme to these applicants.

## 18 Monitoring of the Admissions Policy

This policy is monitored by the Student Recruitment, Admissions and Widening Participation Department and is reviewed and updated on an annual basis. Amendments to the University's Admissions Policy are approved by the Student Intake Strategy Group (SISG). The next review of the policy is expected to take place in October 2026.

## 19 Further Information

Any queries about this policy should be directed by email to:
