

## Climate Action Group

### Terms of Reference

The Climate Action Working Group is an interdisciplinary group of faculty, staff and student dedicated to identifying solutions addressing the urgent action needed to adapt to and mitigate against the global climate change. The group heightens the awareness of the consequences of climate change and provides leadership about action through research, education and engagement activities.

The group will report directly to the Sustainability Board.

Key areas of activity for the group are:

- To identify options for delivering a net zero campus by 2035
- To review and update the Carbon Management Plan to 2030
- To monitor utility consumption (including carbon compliance)
- To forecast university carbon emissions and highlight risks and opportunities
- To develop carbon reduction projects that will engage staff and students and enhance their university experience
- To develop and review the Climate Change Adaptation Plan

### Membership

Prof Karl Whittle	School of Engineering – CHAIR
Roger Bickerstaff	Commercial Accountant, ULEC
Peter Birch	Engineering Services Manager
Clare Casey	Sustainability Officer
Imogen De Castro Gray	Guild Officer
Chloe Field	Guild Officer
Rachael Hanmer-Dwight	Carbon Compliance Officer (Sustainability Lead for group)
