**Letter of commitment to the priorities of the Concordat for the Environmental Sustainability of Research and Innovation Practice**

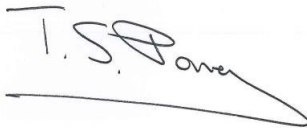

I, Tim Jones, Vice-Chancellor on behalf of the University of Liverpool confirm our commitment to the priority areas outlined in the Concordat for the Environmental Sustainability of Research and Innovation Practice.

The University of Liverpool fully supports the priority areas outlined in the concordat. We will deliver against all the priorities in practice and recognise our responsibilities as a signatory, as set out in the concordat.

By signing this concordat we recognise the need to change how we conduct research and innovation as well as promote wider solutions. We also agree to take shared action now and into the future to reduce and eliminate our own environmental impacts and emissions and achieve the transition to sustainable practices.

We are already making significant progress towards our sustainability ambitions and following the launch of our strategic framework Liverpool 2031, work has been underway to develop a new Sustainability Strategy which will set out key actions to deliver the six priority areas of the concordat: Leadership and system change, Sustainable infrastructure, Sustainable procurement, Emissions from business and academic travel, Collaborations and partnerships, and Environmental impact and reporting data.

Yours sincerely,

**Professor Tim Jones  
Vice-Chancellor  
University of Liverpool
