Dear student,

Firstly, we would like to say a huge congratulations on securing a place at Liverpool Vet School! All that hard work has paid off and you should all be extremely proud of yourselves! 😊

The Liverpool University Veterinary Behaviour Society is a relatively new society, only being set up in January 2020. A large part of being a vet involves interpreting animal behaviour, therefore, this society aims to provide more information and practical opportunities in this subject to make you all more confident both on placements and when you graduate. This year we aim to provide a practical low stress handling day, webinars from BVBA and extra talks from Sarah Heath on topics that you want to know more about. We would love your ideas and input!

Due to the current situation with COVID-19 we are currently adapting ways in which we can run events, however, we hope to provide you with all of the behaviour information you ever wished to know!

If you have any questions, now, or in the future, then please do not hesitate to contact us!

Saskia Walden (President)
