

Liverpool University Veterinary Rugby Club

Hello, welcome and congratulations on gaining a place at Liverpool to begin your veterinary career! We are the vets rugby team and would love to welcome you to our club.

Whether you're an experienced player or have never played before we want to invite you to join our squad. We are a mixed ability team with some players having played academy rugby while others picking up a rugby ball for the first time at uni.

We train every Thursday night with a mixture of touch, drills and some kick tennis; matches take place every Saturday afternoon in a local men's league. The games are very physical, and we are considerably younger than our opponents which allows us to play an exciting brand of expansive, running rugby. Our game against the medics is a massive occasion and often attracts a huge crowd leading to a fiery encounter.

Socials are held weekly at our club sponsor and are a good opportunity for some team bonding and to get to know students in other years of the vet school. We also hold the rugby ball in March which is a firm favourite in the annual calendar for all members.

If rugby is not for you, we also actively encourage social members to join as the club is a great group to be a part of so we have many lads joining just for the fun of the socials.

For further information please follow our Instagram @livvetsrugby and feel free to drop us a DM or send me an email if you would like more information. We look forward to seeing you in September at the Vets Freshers Fair and get you signed up for a year of rugby!
