There are many different Study Abroad opportunities, including our flagship Year in China programme, depending on your degree. Find out more at liverpool.ac.uk/goabroad or meet the team at our events during Semester One.

Studying abroad will be the highlight of your degree. It opens you up to new experiences and forces you to adapt to different situations. You will come out of it with some amazing stories that will stay with you for the rest of your life.

Andy Johnson
BSc Geography, studied at National University of Singapore

*Please see our website for a list of current opportunities. Note, study abroad opportunities are restricted for certain degree programmes.
