UCAS code BAAW

Study mode

Full-time

Duration

4 years

Apply by: **29 January 2025**

Starts on: **22 September 2025**

About this course

A year zero foundation programme, designed for mature students who have typically been out of formal education for some time or who have taken non-traditional qualifications, which leads to access onto a Dental Therapy BSc programme.

Introduction

The University of Liverpool, in collaboration with local FE partners, has developed a year zero foundation programme for Home students that leads to access onto a variety of vocational Health Studies programmes. Our Foundation to Health and Veterinary Studies (Dentistry) course is for students seeking entry to undertake the Dental Therapy BSc (B750) programme.

Students seeking entry to Dentistry will study a foundation year (year zero) at [Carmel College, St Helens](#), about nine miles from the university campus, where the class sizes are small and the standards of academic achievement high.

This programme is specifically targeted at Home mature and non-traditional students, who typically have taken a break from studies.

Please note that we will not consider applications from prospective students who have multiple UCAS applications for a variety of programmes, as this does not demonstrate a clear commitment.

What you'll learn

- Skills needed for independent study at undergraduate degree level
- Undertaking a variety of learning methods and assessment tasks
- A breadth of patient-focused practical experience in a region with a particularly diverse population
- How to provide compassionate, evidence-based, holistic dental care to patients
- How to continually adapt to respond to the current, as well as future, challenges in a dynamic world
- Real-world clinical, team working, and leadership skills

Course content

Discover what you'll learn, what you'll study, and how you'll be taught and assessed.

Year zero

In all modules at year zero, the study skills needed for independent study at undergraduate degree level are developed. Students are also introduced to a variety of learning methods, such as formal taught sessions, workshops and practical laboratory sessions, as well as a variety of assessment tasks, such as written assignments, in class data handling, written and practical examinations to provide a good grounding for vocational programmes.

There are some shared modules for all students, and then route specific modules to ensure the students are prepared for their chosen undergraduate programmes.

Modules

Compulsory modules	Credits
<u>BIOLOGY FOR HEALTH STUDIES 1 (HEAL001)</u>	22.5
<u>BIOLOGY FOR HEALTH STUDIES 2 (HEAL002)</u>	22.5
<u>CHEMISTRY FOR MEDICINE/DENTISTRY 1 (HEAL008)</u>	22.5
<u>CHEMISTRY FOR MEDICINE/DENTISTRY 2 (HEAL009)</u>	22.5
<u>FOUNDATIONS OF PROFESSIONAL STUDIES (HEAL005)</u>	15
<u>HEALTH AND SOCIAL CARE FOR MEDICINE/DENTISTRY (HEAL010)</u>	15

Programme details and modules listed are illustrative only and subject to change.

Teaching and assessment

How you'll learn

Learning is promoted through a wide variety of activities that enable students to become autonomous and continuous learners. Interactive lectures, practical and clinical skills group work, simulation, directed study, role play, problem-based learning, small group work, student-led seminars, collaborative project work and interactive tutorials are key learning strategies of the programmes.

Practical work using our imaging suite digital equipment, 3D virtual reality radiotherapy facility, Clinical Skills Resource Room and the Human Anatomy Resource Centre complement teaching activities. Face-to-face interactions between all students will occur at shared lectures, tutorials and group work and online interaction will be encouraged and facilitated. There are also inter-professional education and learning opportunities across all healthcare professions programmes.

How you're assessed

Using a mixture of coursework and examination, a range of assessment methods can be seen across the programmes. These include seen and unseen written examinations, essay assignments with specific word lengths, multiple choice questions, case study presentations, video analysis and interactive practical examinations. Assessment of the work-based learning element of all programmes is an important aspect. You will be required to communicate your views orally and in written form; analyse, implement and evaluate your practice; and to extend the research and evidence base of your chosen profession.

The various methods of assessments have been chosen to provide a balance that will permit the undergraduates to demonstrate their intellectual abilities in all areas to the full.

Liverpool Hallmarks

We have a distinctive approach to education, the Liverpool Curriculum Framework, which focuses on research-connected teaching, active learning, and authentic assessment to ensure our students graduate as digitally fluent and confident global citizens.

The Liverpool Curriculum framework sets out our distinctive approach to education. Our teaching staff support our students to develop academic knowledge, skills, and understanding alongside our **graduate attributes**:

- Digital fluency
- Confidence
- Global citizenship

Our curriculum is characterised by the three **Liverpool Hallmarks**:

- Research-connected teaching
- Active learning
- Authentic assessment

All this is underpinned by our core value of **inclusivity** and commitment to providing a curriculum that is accessible to all students.

Careers and employability

Studying to become a dental professional encourages students to develop valuable, transferable skills which provide a strong foundation for their careers and their continuing professional development.

You will have gained a qualification that meets the Government's criteria for 'fitness for purpose' and 'fitness for practice' as well as developing transferable skills such as communication, information technology, problem solving and teamwork.

There are a wide range of career opportunities within the profession.

You can look to explore careers in:

- National Health Service
- Social Services
- Private sector
- University teaching
- Armed forces

Fees and funding

Your tuition fees, how to pay, and other costs to consider.

Tuition fees

UK fees (applies to Channel Islands, Isle of Man and Republic of Ireland)

Full-time place, per year - £9,535

Foundation year fee - £7,500

Year abroad fee - £1,430 (applies to year in China)

Following the foundation years, standard course fees apply.

The tuition fees shown are correct for 2025/26 entry. Please note that the year abroad fee also applies to the year in China.

Tuition fees cover the cost of your teaching, assessment, operating University facilities such as libraries, IT equipment, and access to academic and personal support.

Additional costs

There are additional study costs to consider, such as scrubs replacements, travel costs for placements and Occupational Health Clearance assessment.

Two pairs of scrub suits will be provided free of charge. Replacement of the whole suit will incur a cost of approximately £25 plus a delivery fee. Students are responsible for laundering their own scrub suits (the NHS recommends laundering clinical uniforms at 60°). Scrub suits should be clean and ironed at all times. Students may carry out tailoring alterations to their issued scrub suits to meet personal requirements.

Year One

- Lab Coats: Students will be given their lab coats for use in the Human Anatomy Resource Centre free of charge.

Year Three

- Placement costs: All students will undertake a placement in Year Three and will be required to fund their own travel costs. All placements are within 35 miles of the School of Dentistry and are accessible on public transport. A return trip is estimated to cost between £5-£15. Student concessions are also available from local travel companies.

Entry requirements

The qualifications and exam results you'll need to apply for this course.

Clinical Entry Requirements

Please view the [2023 Foundation to Human and Animal Health Professions entry requirements.](#)

T levels

T levels are not currently accepted.

GCSE

5 GCSEs at a minimum grade 5 (C) to include Maths; English Language, Single science to include biology and /or Chemistry or (dual; combined Science).
Applied GCSE Science and pending GCSE grades will not be accepted.

BTEC Level 3 National Extended Diploma

Students currently studying BTEC level 3 will not be considered; BTEC level 2 will not be accepted in lieu of GCSE

International Baccalaureate

Applicants currently studying for International Baccalaureate will not be considered

Irish Leaving Certificate

Applicants currently studying for Irish Leaving Certificate will not be considered

Scottish Higher/Advanced Higher

Applicants currently studying for Scottish Highers will not be considered

Welsh Baccalaureate Advanced

Applicants currently studying for Welsh Baccalaureate will not be considered

Graduate application

Applicants with a previous degree at a minimum of a 2:1 Hons degree but do not meet criteria for direct entry to the BSc degree programme will be considered if they are returning to education following a break.

Access

Applicants currently studying for an Access Diploma will not be considered. Mature students who have recently studied an access course (that is not eligible for direct entry) or offering work- related qualifications will be considered.

Declaration of criminal background

Applicants may be expected to complete either a Declaration of Criminal Background or have a full Disclosure Barring Service check as part of their application.

Disability information

Additional support is given to students who have declared a disability on their UCAS application.

Work Experience Requirements

Evidence of knowledge and insight into the profession with emphasis on learning from work experience/observation is required. NB: Further detail on specific work based experience requirements is available on the relevant degree Programme page.

International qualifications

[Select your country or region to view specific entry requirements.](#)

Many countries have a different education system to that of the UK, meaning your qualifications may not meet our direct entry requirements. Although there is no direct Foundation Certificate route to this course, completing a Foundation Certificate, such as that offered by the [University of Liverpool International College](#), can guarantee you a place on a number of similar courses which may interest you.

Alternative entry requirements

- If your qualification isn't listed here, or you're taking a combination of qualifications, [contact us](#) for advice
- [Applications from mature students](#) are welcome.
