About this course

As one of the world's most important languages both in terms of speaker numbers and its role in science, industry and international diplomacy, studying French opens up a world of opportunities and prospects.

Introduction

Fluency in French opens up dynamic and fast-changing parts of the world outside Europe, including North Africa, Sub-Saharan Africa, as well as parts of the Caribbean, the Indian Ocean and the Pacific. A mastery of this language brings with it access to cultural products including world literature and cinema, but also important social, cultural, historical and linguistic debates.

At Liverpool, French can be taken from A level or as a beginner's language, with no previous qualifications necessary. Our vibrant programmes are designed to both refresh and extend your knowledge of French, with the perfection of language skills at the heart of our degrees. We also actively foster in our students the development of professional skills in French.

All our degrees demand a full intellectual engagement with a wide selection of areas in French studies. You will study French both in and beyond France, as well as aspects of French studies from various social, historical, visual, literary, filmic and linguistic aspects.

All students will spend one year in a French-speaking country as a language assistant in a school, student at a partner university, or on a work placement. If you combine French with a minor in another language, you will split the year between a French-speaking country and another country.

What you'll learn

- Fluency in French
- Knowledge of important social, cultural, historical and linguistic debates
- Access to dynamic and fast-changing parts of the world outside Europe
- A broad historical context of the French language
- Awareness of wider issues in language and linguistics

Combined degree

Choosing this subject as a combined degree

If you split your degree between French and another subject area, you will study a French language module, at beginners' or advanced level, and a cultural module per semester, alongside two other modules in your other subject.

If you combine French with a non-language subject, you will spend the year abroad in a French speaking country as an assistant in a school, as a student at a university or on a work placement. If you combine French with another language, you will split the year abroad between the two countries.

Teaching and assessment

How you'll learn

You will be taught in a mixture of formal lectures, seminars and small group tutorials where a friendly environment prevails and great attention is paid to giving feedback on assessed work.

In language classes, we make every effort to ensure that we have a small number of students compared to competitor institutions, which means that academic staff are able to support students to achieve their full potential. All language modules involve continuous assessment such as oral presentations, listening tests and grammar tests as well as exams. Tuition takes place in small groups with first-language speakers playing a prominent part and includes a range of skills such as listening, writing, speaking, interpreting and translation.

Students are also expected to make regular use of our fully-refurbished Language Lounge to enhance their own study. We encourage our students to become independent learners, and support them through our dedicated library resources in the Sydney Jones Library which is open 24-hour in term time. We also make extensive use of our virtual learning environment VITAL where students can complete structured tasks outside the classroom.

How you're assessed

Performance throughout the year is carefully monitored and used to supplement examinations. For language, such a programme of continuous assessment involves evaluating performance in a variety of written and oral exercises. Other modules have a mix of essay and exam assessment. Our aim is always to assess by methods of evaluation appropriate to the skills being developed and to allow students to gain credit for good work done during the year.

Exams take place at two points in the academic year: at the end of semester one in January and at the end of the session in May, so that the workload is evenly distributed. As regards the final degree result, for language programmes, the second year's work counts for 20%, the work done during the year abroad (foreign exams or extended essay or portfolio) counts for another 10%, and the final year's work counts for 70%.
