

BSc (Hons)

Mathematics with Finance

UCAS code G1N3

Entry requirements

A level: AAB

Study mode

Full-time

Duration

3 years

Apply by: **29 January 2025**

Starts on: **22 September 2025**

About this course

This is one of our most popular degree programmes with great employment potential. Studying a range of topics covering the core areas of mathematics, this course will prepare you for a career in the financial sector.

Introduction

Mathematics is a fascinating, beautiful and diverse subject to study. It underpins a wide range of disciplines; from physical sciences to social science, from biology to business and finance. At Liverpool, our programmes are designed with the needs of employers in mind, to give you a solid foundation from which you may take your career in any number of directions.

This is one of our most popular degree programmes with great employment potential. This programme is designed to prepare you for a career in the banking sector, pension or investment funds, hedge funds, consultancy and auditing firms or government regulators. The course prepares students to be professionals who use mathematical models to analyse and solve financial problems under uncertainty. The programme will provide a useful perspective on how capital markets function in a modern economy.

You will study a range of topics covering important areas of mathematics. The main focus will be on basic financial mathematics, statistics and probability, no assumptions are made about whether or not you have previously studied these, or have previous experience in the use of computers. In the final year, you will cover some specialised work in financial mathematics and more advanced ideas in probability theory and statistics as well as stochastic modelling, econometrics and finance.

This programme also has the option to choose a year abroad in year three, making it a four year programme. You will spend an academic year at one of our partner universities.

What you'll learn

- How to use mathematical models
 - How to analyse and solve financial problems
 - Problem solving
 - Teamwork
 - Communication and presentation skills
-

Accreditation

Institute and Faculty of Actuaries

We have accreditation from the Institute and Faculty of Actuaries. Currently our students can receive exemptions for CS1, CM2 and CBI of the professional actuarial exams conducted by the Institute and Faculty of Actuaries, the professional body for actuaries in the UK.

Royal Statistical Society

Moreover, the programme is accredited by the Royal Statistical Society.

Both accreditations can be achieved on a conditional basis. Accreditations depend on your choice and your performance on optional modules.

Accreditation in detail

Institute and Faculty of Actuaries

With close industry links, excellent teaching and quality content, this course is accredited by the professional Actuarial body [The Institute and Faculty of Actuaries](#).

Institute of Mathematics and its Applications (IMA)

The IMA is the professional learned institute for mathematicians, supporting the advancement of mathematical knowledge and its applications to promote and enhance mathematical practice for the benefit of society.

Royal Statistical Society

The RSS is a professional body for all statisticians and data analysts
- www.rss.org.uk.

Course content

Discover what you'll learn, what you'll study, and how you'll be taught and assessed.

Year one

All modules taken in year one are compulsory.

Modules

Compulsory modules	Credits
<u>CALCULUS I (MATH101)</u>	15
<u>CALCULUS II (MATH102)</u>	15
<u>INTRODUCTION TO LINEAR ALGEBRA (MATH103)</u>	15
<u>MATHEMATICAL IT SKILLS (MATH111)</u>	15
<u>INTRODUCTION TO STATISTICS USING R (MATH163)</u>	15
<u>INTRODUCTION TO FINANCE (ACF1103)</u>	15
<u>INTRODUCTION TO STUDY AND RESEARCH IN MATHEMATICS (MATH107)</u>	15
<u>THEORY OF INTEREST (MATH167)</u>	15

Programme details and modules listed are illustrative only and subject to change.

Year two

In addition to the compulsory modules below, you will choose two optional modules, one in semester 1 and one in semester 2. For students who did not study at XJTLU,

module MATH221 is compulsory, module MATH242 is optional. For students who did study at XJTLU, module MATH242 is compulsory, module MATH221 is not available.

Modules

Compulsory modules	Credits
<u>CORPORATE FINANCIAL MANAGEMENT FOR NON-SPECIALIST STUDENTS (ACFI213)</u>	15
<u>FINANCIAL REPORTING AND FINANCE (NON-SPECIALIST) (ACFI290)</u>	15
<u>STATISTICS AND PROBABILITY I (MATH253)</u>	15
<u>DIFFERENTIAL EQUATIONS (MATH221)</u>	15
<u>FINANCIAL MATHEMATICS (MATH262)</u>	15
<u>STATISTICS AND PROBABILITY II (MATH254)</u>	15
<u>METRIC SPACES AND CALCULUS (MATH242)</u>	15
Optional modules	Credits
<u>INTRODUCTION TO DATA SCIENCE (COMP229)</u>	15
<u>OPERATIONAL RESEARCH: PROBABILISTIC MODELS (MATH268)</u>	15
<u>METRIC SPACES AND CALCULUS (MATH242)</u>	15
<u>NUMERICAL METHODS (MATH256)</u>	15
<u>OPERATIONAL RESEARCH (MATH269)</u>	15

Optional modules	Credits
<u>BECOMING ENTREPRENEURIAL (ULMS254)</u>	15

Programme details and modules listed are illustrative only and subject to change.

Year three

Choose four optional modules, two from semester 1 and two from semester 2, of which at least two must be MATH modules.

Modules

Compulsory modules	Credits
<u>APPLIED PROBABILITY (MATH362)</u>	15
<u>STOCHASTIC MODELLING IN INSURANCE AND FINANCE (MATH375)</u>	15
<u>STATISTICAL METHODS IN INSURANCE AND FINANCE (MATH374)</u>	15
<u>FINANCIAL AND ACTUARIAL MODELLING IN R (MATH377)</u>	15

Optional modules	Credits
<u>ECONOMETRICS 1 (ECON212)</u>	15
<u>FURTHER METHODS OF APPLIED MATHEMATICS (MATH323)</u>	15
<u>LINEAR STATISTICAL MODELS (MATH363)</u>	15
<u>NETWORKS IN THEORY AND PRACTICE (MATH367)</u>	15

Optional modules	Credits
<u>MEASURE THEORY AND PROBABILITY (MATH365)</u>	15
<u>DERIVATIVE SECURITIES (ACFI310)</u>	15
<u>GAME THEORY (MATH331)</u>	15
<u>APPLIED STOCHASTIC MODELS (MATH360)</u>	15
<u>THEORY OF STATISTICAL INFERENCE (MATH361)</u>	15
<u>STOCHASTIC THEORY AND METHODS IN DATA SCIENCE (MATH368)</u>	15
<u>MATHEMATICAL RISK THEORY (MATH366)</u>	15
<u>MATHS SUMMER INDUSTRIAL RESEARCH PROJECT (MATH391)</u>	15

Programme details and modules listed are illustrative only and subject to change.

Teaching and assessment

How you'll learn

Your learning activities will consist of lectures, tutorials, practical classes, problem classes, private study and supervised project work.

In year one, lectures are supplemented by a thorough system of group tutorials and computing work is carried out in supervised practical classes. Key study skills, presentation skills and group work start in first-year tutorials and are developed later in the programme.

The emphasis in most modules is on the development of problem solving skills, which are regarded very highly by employers. Project supervision is on a one-to-one basis, apart from group projects in year two.

How you're assessed

Most modules are assessed by a two and a half hour examination in January or May, but many have an element of coursework assessment. This might be through homework, class tests, mini-project work or key skills exercises.

Liverpool Hallmarks

We have a distinctive approach to education, the Liverpool Curriculum Framework, which focuses on research-connected teaching, active learning, and authentic assessment to ensure our students graduate as digitally fluent and confident global citizens.

The Liverpool Curriculum framework sets out our distinctive approach to education. Our teaching staff support our students to develop academic knowledge, skills, and understanding alongside our **graduate attributes**:

- Digital fluency
- Confidence
- Global citizenship

Our curriculum is characterised by the three **Liverpool Hallmarks**:

- Research-connected teaching
- Active learning
- Authentic assessment

All this is underpinned by our core value of **inclusivity** and commitment to providing a curriculum that is accessible to all students.

[^ Back to top](#)

Careers and employability

A mathematically-based degree opens up a wide range of career opportunities, including some of the most lucrative professions.

Recent employers of our graduates are:

- Barclays Bank plc
- Deloitte
- Forrest Recruitment
- Marks and Spencer
- Mercer Human Resource Consulting Ltd.
- Venture Marketing Group.
- BAE Systems
- BT
- Guardian Media Group
- Royal Bank of Scotland
- Siemens
- Unilever.

Fees and funding

Your tuition fees, funding your studies, and other costs to consider.

Tuition fees

UK fees (applies to Channel Islands, Isle of Man and Republic of Ireland)

Full-time place, per year - £9,535

Year abroad fee - £1,430 (applies to year in China)

International fees

Full-time place, per year - £26,600

Year abroad fee - £13,300 (applies to year in China)

The tuition fees shown are correct for 2025/26 entry. Please note that the year abroad fee also applies to the year in China.

Tuition fees cover the cost of your teaching and assessment, operating facilities such as libraries, IT equipment, and access to academic and personal support. [Learn more about paying for your studies.](#)

Additional costs

We understand that budgeting for your time at university is important, and we want to make sure you understand any course-related costs that are not covered by your tuition fee. This could include buying a laptop, books, or stationery.

Find out more about the [additional study costs](#) that may apply to this course.

Entry requirements

The qualifications and exam results you'll need to apply for this course.

A levels

AAB including Mathematics A level grade A.

Applicants with the Extended Project Qualification (EPQ) are eligible for a reduction in grade requirements. For this course, the offer is **ABB** with **A** in the EPQ.

You may automatically qualify for reduced entry requirements through our contextual offers scheme. Based on your personal circumstances, you may automatically qualify for up to a two-grade reduction in the entry requirements needed for this course. When you apply, we consider a range of factors – such as where you live – to assess if you're eligible for a grade reduction. You don't have to make an application for a grade reduction – we'll do all the work.

Find out more about [how we make reduced grade offers](#).

If you don't meet the entry requirements, you may be able to complete a foundation year which would allow you to progress to this course.

Available foundation years:

- [Mathematical Sciences BSc \(Hons\) \(Foundation, 4 year route with Carmel College\) BSc \(Hons\)](#)

T levels

T levels are not currently accepted.

GCSE

4/C in English and 4/C in Mathematics

Subject requirements

Applicants must have studied Mathematics at Level 3 within 2 years of the start date of their course.

For applicants from England: For science A levels that include the separately graded practical endorsement, a "Pass" is required.

BTEC Level 3 National Extended Diploma

Applications considered when combined with A level Maths grade A

International Baccalaureate

35 including 6 in Higher Mathematics

Irish Leaving Certificate

H1, H1, H2, H2, H2, H3 including Mathematics at H1

Scottish Higher/Advanced Higher

Advanced Highers accepted at grades AAB including grade A in Mathematics.

Welsh Baccalaureate Advanced

Acceptable at grade B or above alongside AA at A level including grade A in Mathematics.

Access

Considered

International qualifications

Select your country or region to view specific entry requirements.

If you hold a bachelor's degree or equivalent, but don't meet our entry requirements, you could be eligible for a Pre-Master's course. This is offered on campus at the [University of Liverpool International College](#), in partnership with Kaplan International Pathways. It's a specialist preparation course for postgraduate study, and when you pass the Pre-Master's at the required level with good attendance, you're guaranteed entry to a University of Liverpool master's degree.

English language requirements

You'll need to demonstrate competence in the use of English language, unless you're from a majority English speaking country.

We accept a variety of international language tests and country-specific qualifications.

International applicants who do not meet the minimum required standard of English language can complete one of our Pre-Sessional English courses to achieve the required level.

IELTS

6.0 overall, with no component below 5.5

TOEFL iBT

78 overall, with minimum scores of listening 17, writing 17, reading 17 and speaking 19. TOEFL Home Edition not accepted.

TOEFL Paper

Grade 6 at Standard Level or grade 5 at Higher Level

Duolingo English Test

115 overall, with speaking, reading and writing not less than 105, and listening not below 100

Pearson PTE Academic

59 overall, with no component below 59

LanguageCert Academic

65 overall, with no skill below 60

Cambridge IGCSE First Language English 0500

Grade C overall, with a minimum of grade 2 in speaking and listening. Speaking and listening must be separately endorsed on the certificate.

Cambridge IGCSE First Language English 0990

Grade 4 overall, with Merit in speaking and listening

Cambridge IGCSE Second Language English 0510/0511

0510: Grade C overall, with a minimum of grade 2 in speaking. Speaking must be separately endorsed on the certificate. 0511: Grade C overall.

Cambridge IGCSE Second Language English 0993/0991

0993: Grade 5 overall, with a minimum of grade 2 in speaking. Speaking must be separately endorsed on the certificate. 0991: Grade 5 overall.

Cambridge ESOL Level 2/3 Advanced

169 overall, with no paper below 162

LanguageCert

Grade 4 at Standard Level or grade 4 at Higher Level

Pre-sessional English

Do you need to complete a Pre-sessional English course to meet the English language requirements for this course?

The length of Pre-sessional English course you'll need to take depends on your current level of English language ability.

Pre-sessional English in detail

If you don't meet our English language requirements, we can use your most recent IELTS score, or [the equivalent score in selected other English language tests](#), to determine the length of Pre-sessional English course you require.

Use the table below to check the course length you're likely to require for your current English language ability and see whether the course is available on campus or online.

Your most recent IELTS score	Pre-sessional English course length	On campus or online
5.5 overall, with no component below 5.5	6 weeks	On campus
5.5 overall, with no component below 5.0	10 weeks	On campus and online options available
5.0 overall, with no component below 5.0	12 weeks	On campus and online options available
5.0 overall, with no component below 4.5	20 weeks	On campus
4.5 overall, with no component below 4.5	30 weeks	On campus
4.0 overall, with no component below 4.0	40 weeks	On campus

If you've completed an alternative English language test to IELTS, we may be able to use this to assess your English language ability and determine the Pre-sessional English course length you require.

Please see our guide to [Pre-sessional English entry requirements](#) for IELTS 6.0 overall, with no component below 5.5, for further details.

Alternative entry requirements

- If your qualification isn't listed here, or you're taking a combination of qualifications, [contact us](#) for advice
- [Applications from mature students](#) are welcome.
