Clinical Skills Society
SETTING YOU UP FOR SUCCESS

Veterinary Clinical Skills Society 2024-2025

Hello freshers, congratulations! You made it!

We are the clinical skills society, here to help you strengthen the skills that you will need for the rest of your careers. Founded in 2023, we are a new society aimed at improving your learning experience and ensuring you remember these skills like the back of your hand!

Clinical Skills will play a key role in your vet school journey, and more importantly will give you the skills you need to perform well in your future jobs as vets!

This is one of the areas you will be examined on during the full course, and therefore one of the most important aspects to get right (at least that's what we think!). Don't panic though, there is plenty of time between this and your exams!

Our society is completely **free** to join and runs weekly **Wednesday afternoon** sessions in the round room (you will get to see this during Welcome Week) for you to come in and practice what you feel you need to practice. We recommend attending a couple of sessions, it will give you an opportunity to speak to some older year vet students and gain some tips and tricks from those who have been in your position and made it into the next year. Plus, we get pretty busy by the end of the year, so get your practice in early!

Last year, we held a preparation for EMS session which had great feedback, and we plan to do the same this year too. We also held skill specific days for each year group, to go through the main topics which students struggle with during their exams.

We hope to bring some interesting talks, quizzes and more this year, and we will be waiting to meet you at the fresher's fair!

Huge congratulations again on joining us here at Liverpool, we can't wait to meet you and watch you progress into a fine vet over these next five years!

If you have any questions in the meantime, feel free to contact us via our Instagram or email me via hlahingl@liverpool.ac.uk If not, we'll see you in September!

Clinical Skills Society Team.
