

Under Serengeti Skies

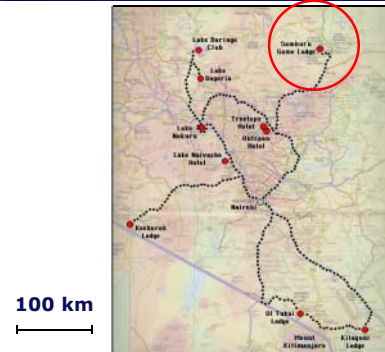

Under Serengeti Skies

A group of hippos is gathered in a pond at night. The scene is illuminated by warm, yellowish lights, possibly from a campfire or lanterns, creating a glowing effect on the water and the surrounding vegetation. The hippos are partially submerged, with their heads and backs visible above the water. The background is dark, suggesting a night sky or dense foliage.

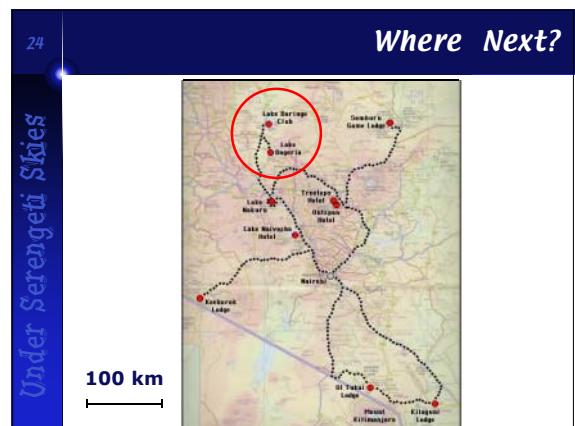

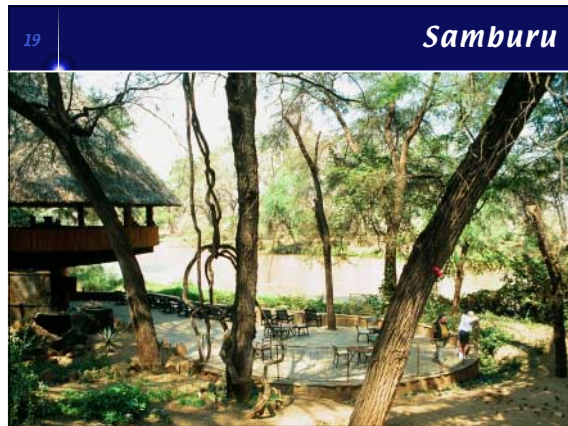

[illegible]

A wide-angle photograph of a large, snow-capped mountain (likely Mount Fuji) in the background, with a line of trees and a field of cattle in the foreground. The scene is captured in a landscape orientation, showing a vast, open field with several cows grazing. A line of trees separates the field from the base of the mountain. The sky is clear and blue, and the overall atmosphere is serene and rural.
